## Exclusion checkpoint

Needs YES to all

2 scans before and after	Smoking cessation during study	COPD patients included in this analysis
--------------------------	--------------------------------	---

If NO answered to any of the above, exclude from extraction and review.

## Participants

At baseline:

### ***COPD definition***

Not defined	GOLD	LLN	Other:
-------------	------	-----	--------

### ***Smoking cessation definition***

Not defined	Since last scan	Time period X since last scan:
-------------	-----------------	--------------------------------

### ***Age (mean, SD):***

--

### ***Number of patients in study total***

--

### ***Gender of patients (M/F or ratio)***

M	F
---	---

### ***Smoking history, pack-years, mean (SD)***

Overall	Case	Control
---------	------	---------

### ***FEV1 at baseline, and at interval, if available (mean, SD)***

Overall	Case	Control
---------	------	---------

### COPD severity (%)

COPD diagnosis %age	GOLD1	GOLD2	GOLD3	GOLD4	Other:
---------------------	-------	-------	-------	-------	--------

### Methods

#### Study design

Cohort	Case-control	RCT	other
--------	--------------	-----	-------

#### Study setting?

Primary care	Secondary care
--------------	----------------

#### Monitoring of smoking cessation

Self-reported	CO monitoring	Urinary cotinine	Other:
---------------	---------------	------------------	--------

#### Were the scans acquired for this purpose primarily?

Yes	No (why then?):
-----	-----------------

#### Any other interventions carried out concurrently?

--

#### CT scanning protocol

LDCT	Inspiratory	Insp-exp	Contrast	Other:
------	-------------	----------	----------	--------

### Results

CT Measure	Case (mean change, SD)	Control (mean change, SD)	p-value
%LAA/RA-910			
%LAA/RA-950			
%LAV			
Pi10			
PD15			
WA%			
PRM			
Other:			

Duration between first and second scan (days) mean, SD if available

Duration between smoking cessation and second scan (days, mean, SD), if available

At first intervention

Number of quitters	Number of continued smokers
--------------------	-----------------------------
