

## Supplemental Data

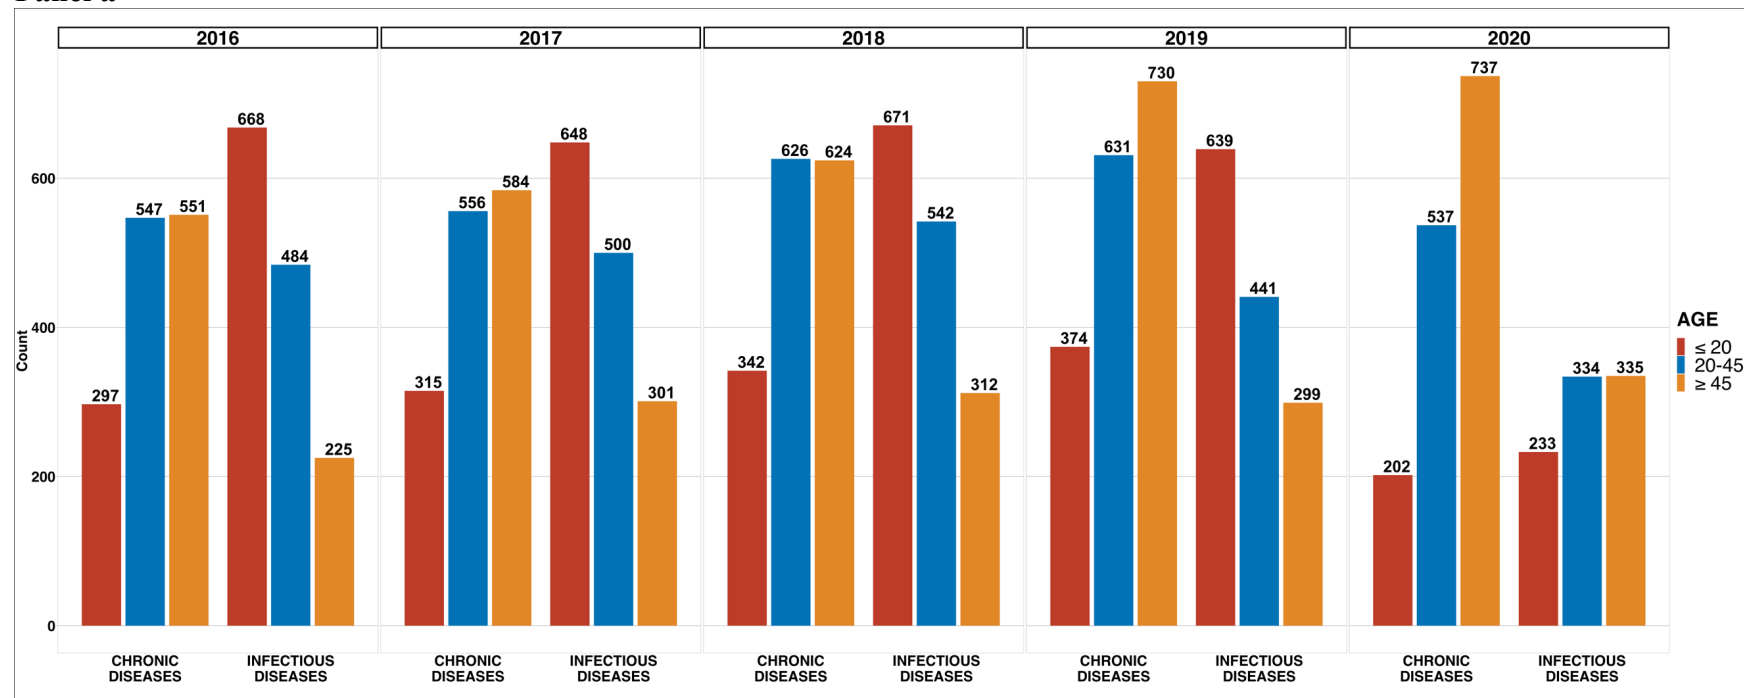

- **e-Figure 1.** Flowchart of Sample Selection.
- **e-Figure 2.** Number of emergency medical consultations for chronic and infectious diseases by age group (panel a) and gender (panel b) over a 5-year period.
- **e-Figure 3.** Broad diagnostic categories of emergency medical consultations for chronic and infectious diseases by age group (Panel a) and gender (Panel b) over a 5-year period.
- **e-Figure 4.** Number of emergency medical consultations for Cardiovascular (Panel a), Non-Traumatic Rheumatology (Panel b), Psychiatry and Psychological (Panel c), and Ear Nose and Throat and Stomatology (Panel d) disease over a 5-year period
- **e-Table 1.** Characteristics of the consultations from April to May (2020) as compared to June to July (2020).
