

Table S1. Paths of parallel process latent growth models to link functional connectivity between dorsal anterior cingulate cortex and bilateral anterior insula and (1) externalizing and (2) internalizing behaviors.

	β, p	95% CI	
		lower CI	upper CI
Model 1: Externalizing behavior			
Neglect \rightarrow FC Intercept	-.05	-.18	.08
Neglect \rightarrow FC Slope	.02	-.11	.20
Neglect \rightarrow E Intercept	.12*	.00	.24
Neglect \rightarrow E Slope	.08	-.08	.23
Abuse \rightarrow FC Intercept	-.03	-.14	.11
Abuse \rightarrow FC Slope	-.04	-.18	.12
Abuse \rightarrow E Intercept	.15*	.03	.29
Abuse \rightarrow E Slope	.00	-.13	.14
FC Intercept \rightarrow E Slope	-.06	-.20	.10
E Intercept \rightarrow FC Slope	.06	-.06	.19
Neglect \rightarrow E Intercept \rightarrow FC Slope	.01	-.00	.04
Neglect \rightarrow FC Intercept \rightarrow E Slope	.00	-.01	.02
Abuse \rightarrow E Intercept \rightarrow FC Slope	.01	-.01	.04
Abuse \rightarrow FC Intercept \rightarrow E Slope	.00	-.01	.02
Model 2: Internalizing behavior			
Neglect \rightarrow FC Intercept	-.06	-.19	.08
Neglect \rightarrow FC Slope	.00	-.13	.18
Neglect \rightarrow I Intercept	.13*	.00	.24
Neglect \rightarrow I Slope	.12	-.02	.26
Abuse \rightarrow FC Intercept	-.01	-.14	.11
Abuse \rightarrow FC Slope	-.01	-.16	.13
Abuse \rightarrow I Intercept	.14*	.05	.32
Abuse \rightarrow I Slope	-.00	-.16	.15
FC Intercept \rightarrow I Slope	.01	-.16	.18
I Intercept \rightarrow FC Slope	.01	-.12	.14
Neglect \rightarrow I Intercept \rightarrow FC Slope	.01	-.00	.04
Neglect \rightarrow FC Intercept \rightarrow I Slope	.00	-.01	.02
Abuse \rightarrow I Intercept \rightarrow FC Slope	.01	-.01	.04
Abuse \rightarrow FC Intercept \rightarrow I Slope	.00	-.01	.02

Note. FC = functional connectivity from dorsal anterior cingulate cortex to regions of the cingulo-opercular network, E = externalizing, I = internalizing, β = regression weight, CI = confidence interval, $p(*)$ = significant paths.
