

Additional file – 5: List of articles excluded after full-text review

Sr No	Author (Year of Publication)	Title	Reason for exclusion
1	Joseph et al. (2014)	Epidemiological profile of facial trauma treated at father muller hospital, Thumbay	Data on pedestrian injuries was not available.
2	Keum (2016)	Analysis of road traffic crashes and injury severity of pedestrian victims in the Gambia	Specific injury severity scoring system was not used.
3	Yang et al. (2005)	Correlation of different impact conditions to the injury severity of pedestrians in real world accidents	Data on pedestrian injuries was not available.
4	Porchia et al. (2014)	Effectiveness of two interventions in preventing traffic accidents: a systematic review	Reference list was screened for any relevant and missing articles. No new article was found.
5.	Reith et al. (2015)	Injury pattern, outcome, and characteristics of severely injured pedestrian	Study context was not relevant to LMICs. This information was not available in the title and abstract section.
6.	Lozano et al. (2012)	Global and regional mortality from 235 causes of death for 20 age groups in 1990 and 2010: a systematic analysis for the Global Burden of Disease Study 2010	Reference list was screened for any relevant and missing articles.
7.	Lateef M (2011)	Spatial patterns monitoring of road traffic injuries in Karachi metropolis	Specific injury severity scoring system was not used.
8.	Olukoga A (2008)	Pattern of road traffic accidents in Durban municipality, South Africa	Specific injury severity scoring system was not used.
9.	Obeng K (2007)	Injury Severity, Vehicle Safety Features, and Intersection Crashes	Study context was not relevant to LMICs. This information was not available in the title and abstract section.
10.	Moe H (2008)	Road traffic injuries among patients who attended the accident and emergency unit of the university of Malaya Medical Centre, Kuala Lumpur	Specific injury severity scoring system was not used.
11.	Adeloye D et al. (2016)	The burden of road traffic crashes, injuries, and deaths in Africa: a systematic review and meta-analysis	Reference list was screened for any relevant and missing articles.

12.	Mooney S J et al. (2016)	Use of Google Street View to Assess Environmental Contributions to Pedestrian Injury	Specific injury severity scoring system was not used.
13.	Lutge E et al. (2016)	Injury Research: Investigators at University of KwaZulu-Natal Report Findings in Injury Research (A hospital-based surveillance system to assess the burden of trauma in KwaZulu-Natal Province South Africa)	Specific injury severity scoring system was not used.
14.	Zhou M et al. (2016)	Cause-specific mortality for 240 causes in China during 1990-2013: a systematic subnational analysis for the Global Burden of Disease Study 2013	Reference list was screened for any relevant and missing articles.
15.	Richmond S A et al. (2016)	Trends in unintentional injury mortality in Canadian children 1950-2009 and association with selected population-level interventions	Data on pedestrian injuries was not available.
16.	Hyder A et al. (2016)	The Road Traffic Injuries Research Network: a decade of research capacity strengthening in low- and middle-income countries	Data on pedestrian injuries was not available.
17.	Leidman E et al. (2016)	Road traffic fatalities in selected governorates of Iraq from 2010 to 2013: prospective surveillance	Specific injury severity scoring system was not used.
18.	McClure R et al. (2015)	Contextual Determinants of Childhood Injury: A Systematic Review of Studies with Multilevel Analytic Methods	Reference list was screened for any relevant and missing articles.
19.	Dharmaratne S D et al. (2015)	Road traffic crashes, injury and fatality trends in Sri Lanka: 1938-2013	Specific injury severity scoring system was not used.
20.	Matzopoulos R et al. (2015)	Injury-related mortality in South Africa: a retrospective descriptive study of post-mortem investigations	Specific injury severity scoring system was not used.
21.	Onywera V O et al. (2013)	Road accidents: a third burden of 'disease' in sub-Saharan Africa	Data on pedestrian injuries was not available.
22.	Verzosa N et al. (2016)	Severity of road crashes involving pedestrians in Metro Manila, Philippines	Specific injury severity scoring system was not used.

23.	Huang K et al. (2015)	The relationship between injury severity and individual characteristics: a survey in Southern China	Specific injury severity scoring system was not used.
24.	Qiu J et al. (2016)	Analysis of road traffic injuries by road user type in Chongqing, China	Specific injury severity scoring system was not used.
25.	Lutge E et al. (2015)	A hospital-based surveillance system to assess the burden of trauma in KwaZulu-Natal Province South Africa	Specific injury severity scoring system was not used.
26.	McGreevy J et al. (2014)	Road traffic injuries in Yaounde, Cameroon: A hospital-based pilot surveillance study	Specific injury severity scoring system was not used.
27.	Bumbasirevic M et al. (2014)	Severe road traffic injuries and youth: a 4-year analysis for the city of Belgrade	Data on pedestrian injuries was not available.
28.	Kamruzzaman M et al. (2014)	Analysis of Traffic Injury Severity in Dhaka, Bangladesh	Data on pedestrian injuries was not available.
29.	Parkinson F et al. (2013)	Road traffic crashes in South Africa: The burden of injury to a regional trauma centre	Specific injury severity scoring system was not used.
30.	Parkinson F et al. (2013)	Patterns of injury seen in road crash victims in a South African trauma centre	Specific injury severity scoring system was not used.
31.	Minca D G et al. (2013)	Profile of persons involved in traffic accidents in Romania	Data on pedestrian injuries was not available.
32.	Zhao H et al. (2013)	An Investigation on the Head Injuries of Adult Pedestrians by Passenger Cars in China	Specific injury severity scoring system was not used.
33.	Velloso et al. (2012)	On-the-spot study of pedestrian crashes on Brazilian Federal District rural highways crossing urban areas	Specific injury severity scoring system was not used.
34.	Pernica J F et al. (2011)	Risk factors predisposing to pedestrian road traffic injury in children living in Lima, Peru: a case-control study	Specific injury severity scoring system was not used.
35.	Zimmerman K et al. (2011)	Road traffic injury incidence and crash characteristics in Dar es Salaam: A population-based study	Data on pedestrian injuries was not available.
36.	Guerrero A et al. (2010)	Paediatric road traffic injuries in urban Ghana: a population-based study	Specific injury severity scoring system was not used.
37.	Malta D C et al. (2011)	Analysis of the occurrence of traffic injuries and related factors according to the	Specific injury severity scoring system was not used.

		National Household Sample Survey (PNAD) - Brazil, 2008	
38.	Dandona R et al. (2011)	Road use pattern and risk factors for non-fatal road traffic injuries among children in urban India	Specific injury severity scoring system was not used.
39.	Li F et al. (2010)	A study of head brain injuries in car-to-pedestrian crashes with reconstructions using in-depth accident data in China	Specific injury severity scoring system was not used.
40.	Zhao H et al. (2010)	Investigation of 184 passenger car-pedestrian accidents	Specific injury severity scoring system was not used.
41.	Bhalla K et al. (2009)	Building national estimates of the burden of road traffic injuries in developing countries from all available data sources: Iran	Data on pedestrian injuries was not available.
42.	Dandona R et al (2008)	Incidence and burden of road traffic injuries in urban India	Specific injury severity scoring system was not used.
43.	Adesunkanmi A R et al. (2000)	Road traffic accidents to African children: assessment of severity using the Injury Severity Score (ISS)	Data on pedestrian injuries was not available.
44.	Al-Omari B H et al. (2013)	Analysis of Pedestrian Accidents in Irbid City, Jordan	Specific injury severity scoring system was not used.
45.	Nie J et al. (2010)	A Study on Pedestrian Injuries based on Minivan and Sedan Real-World Accidents	Specific injury severity scoring system was not used.
46.	Siram S M et al. (2010)	Does the Pattern of Injury in Elderly Pedestrian Trauma Mirror That of The Younger Pedestrian?	Specific injury severity scoring system was not used.
47.	Derry J D et al. (2010)	Pedestrians Injury Patterns in Ghana	Specific injury severity scoring system was not used.
