#### 1.2 Staff survey questions

Table 2: Staff Survey Management Questions

# 7) My immediate manager: a. encourages those who work for her/him to work as a team b. can be counted on to help me with a difficult task at work c. gives me clear feedback on my work d. asks for my opinion before making decisions that affect my work e. is supportive in a personal crisis f. takes a positive interest in my health and well-being g. values my work 8) Senior managers: a. I know who the senior managers are here b. Communication between senior management and staff is effective c. Senior managers here try to involve staff in important decisions d. Senior managers act on staff feedback

#### 3 Examining between and within variation in data

### 3.1 Comparison of variation in management measures, controls and outcomes between hospitals versus within hospitals over time

Table 4: Overall, between and within variation in management, control and outcome variables 2012/13 - 2018/19

Variable		Mean	Std. Dev.	Min	Max	Observations
Number of managers $(M_1)$	overall	113.80	73.44	4	492.85	N = 928
	between		71.48	7.29	407.60	n = 134
	within		21.35	-33.27	234.99	T-bar = 6.93
Quality of management $(M_2)$	overall	62.68	3.21	48.80	71	N = 927
	between		2.08	55.27	67.59	n = 134
	within		2.44	53.23	68.63	T-bar = 6.92
Number of managers $(M_3)$	overall	167.08	98.47	9.80	563.3	N = 395
	between		100.72	10.27	562.2	n = 134
	within		15.76	102.91	289.21	T-bar = 2.95
Spend on managers in £ million $(M_4)$	overall	9.93	5.64	1.01	35.62	N = 395
	between		5.75	1.11	32.45	n = 134
	within		0.92	6.02	16.92	T-bar = 2.95
Number of staff (FTE)	overall	9397.27	5939.77	1424	35251.25	N = 923
rumber of stair (1 12)	between	0001.21	4604.45	2659.53	25306.28	n = 134
	within		3821.12	-3648.72	19342.24	T-bar = 6.89
Number of beds	overall	776.98	344.79	224	2658	N = 926
	between		335.46	248.71	1894.14	n = 134
	within		86.66	313.13	2163.84	T-bar = 6.91
Total budget (£ million)	overall	427.46	261.87	93.53	1621.49	N = 927
	between		255.36	106.46	1473.48	n = 134
	within		64.27	37.98	1196.07	T-bar = 6.92
Net financial position (£ million)	overall	-8.44	22.74	-180.07	80.51	N = 927
- ` ` '	between		16.60	-73.56	33.36	n = 134
	within		15.74	-120.87	65.53	T-bar = 6.92
Elective waiting time target met (%)	overall	91.15	4.91	66.20	99.70	N = 896
	between		2.79	83.69	96.40	n = 134
	within		4.05	71.15	105.08	T-bar = 6.69
A&E waiting time target met (%)	overall	88.19	7.19	52	100	N = 823
	between		4.68	71	97.86	n = 119
	within		5.54	56.62	108.19	T-bar = 6.92
Total inpatient admissions	overall	130909	58086	36094	332520	N = 899
	between		56190	38731	300846	n = 134
	within		15352	37776	247145	T-bar = 6.71
Summary Hospital-level Mortality Indicator	overall	1.00	0.10	0.54	1.23	N = 922
	between		0.09	0.68	1.160	n = 134
	within		0.04	0.77	1.19	T-bar = 6.88

## 3.2 Exploring the between and within variation in the relationship between management and outcomes

Figure 12: Between variation across 129 acute NHS hospital trusts

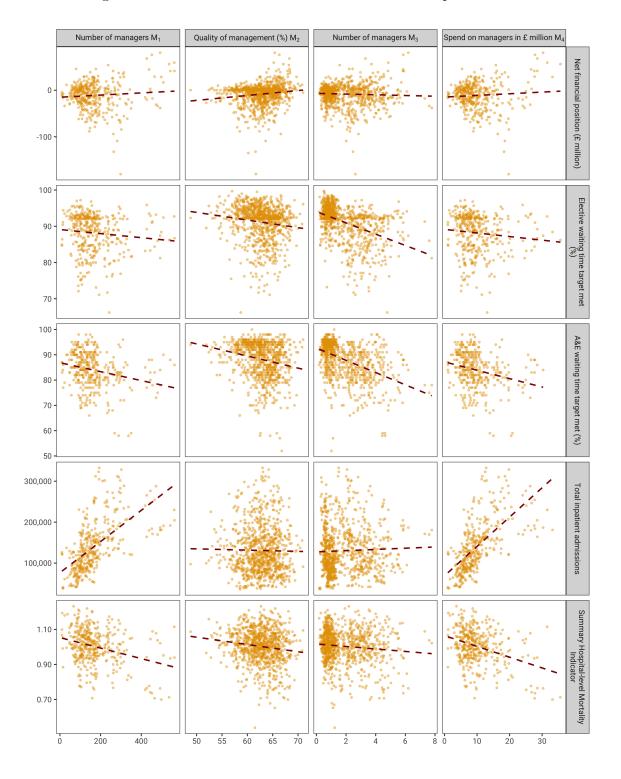

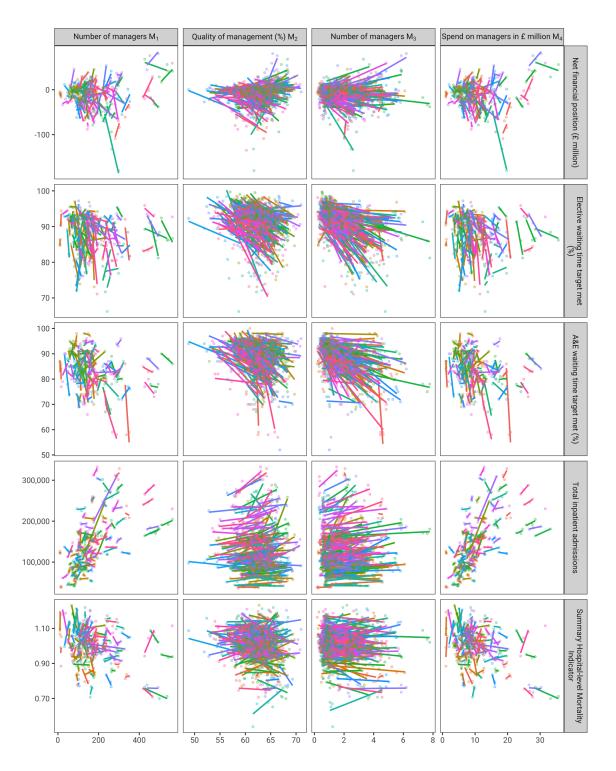

Figure 13: Within variation across 129 acute NHS hospital trusts

#### 4 Alternative specifications of mediation regressions

#### 4.1 Number of managers $(M_1)$

Table 5: Amount of managerial input and quality of management  $(M_2)$  2012/13 – 2018/19
