Has your physical performance in the trial exceeded your prior expectations?

When you trained at home, did you train alone or was someone there to help or train with you?

During the trial, did you show or teach someone else how to use a kettlebell?

Have family or friends expressed interest in your participation in the trial and/or you training with a kettlebell? (If 'Yes', please explain:)

If the kettle bell training could have been designed and delivered just for you, what would it have looked like i.e., how would it have been different?
