Mutual Aid Requests
and Offers
N=86

114 Buyers Club programs
in 40 states ordered **3.7 million**
doses of generic injectable
naloxone.

52%

of harm reduction
orgs received NO
federal funding for
naloxone and ordered
1/2 as much as
programs with federal
funding

80%

of programs shared
naloxone through
mutual aid

Barriers to Access

1) US FDA classification
of naloxone as
“prescription-only.”

2) Corporate compliance fears
of FDA enforcement.

3) Inadequate financial
investment in programs that
reach marginalized people.

4) Overemphasis in federal
policy on retail pharmacy sales
at the expense of harm
reduction programs.
