**Evaluation of General Practice Rotation (Blockpraktikum)  
Your request via email from August 25, 2021**

Dear Mrs. Weltermann,

The above-mentioned documents were evaluated in the simplified process by the Chair of the Ethics' Committee of the Medical Faculty of Rheinische-Fredrich-Wilhelms-University Bonn:

It is confirmed that the described evaluation of the course "Blockpraktikum Allgemeinmedizin" (Family Medicine rotation) is not considered "biomedical research on humans" and thus this research project does not need counseling by the ethics committee in accordance with § 15 of the professional code for the physicians in North-Rhine.

Yours sincerely,

Prof. Dr. Kurt Racké  
Chair Ethics Committee
