Supplemental Information

Table S1. Correlations between wastewater viral concentrations and unlagged case counts

Site Name	Spearman rank correlation				
	Overall (county-level cases)	Pre-Delta (1/1/2021 to 4/5/2021)	Delta surge (31 days before start of surge to peak of surge)	Omicron surge (31 days before start of surge to peak of surge)	Overall (sewershed-level cases)
Overall (19 sites)	0.77	0.64	0.79	0.79	0.76
Laurinburg	0.75*	n/a	0.76*	0.72*	0.74*
Tuckaseegee	0.83*	0.92*	0.92*	0.70*	0.74*
Marion	0.82*	n/a	0.65*	0.88*	0.81*
Beaufort	0.53*	0.09	0.36*	0.88*	0.44*
Roanoke Rapids	0.71*	n/a	0.82*	0.72*	0.72*
City of Wilson	0.80*	n/a	0.72*	0.66*	0.80*
Chapel Hill – Carrboro	0.85*	0.52*	0.86*	0.78*	0.84*
Greenville	0.86*	0.73*	0.85*	0.79*	0.85*
Wilmington City (North)	0.81*	0.63*	0.88*	0.83*	0.77*
New Hanover County (North)	0.56*	0.61*	0.75*	0.55*	0.53*
South Durham	0.78*	0.70*	0.73*	0.93*	0.76*
Fayetteville – Rockfish	0.71*	n/a	0.79*	0.77*	0.71*
MSD of Buncombe	0.87*	n/a	0.94*	0.88*	0.86*
Winston Salem – Salem	0.86*	n/a	0.89*	0.84*	0.86*
Greensboro – North Buffalo	0.77*	n/a	0.81*	0.80*	0.74*
Charlotte 1	0.80*	0.64*	0.86*	0.71	0.80*
Charlotte 2	0.74*	0.71*	0.88*	0.83*	0.75*
Charlotte 3	0.79*	n/a	0.78*	0.77*	0.80*
Raleigh	0.88*	0.86*	0.74*	0.92*	0.86*

Note: Correlations were calculated between the wastewater viral concentrations (the arithmetic means of the N1 and N2 concentrations, normalized by the flow rate and service population size) and the 7-day rolling average of county-level case counts (unless otherwise specified). Sites are ordered by ascending county population size.

MSD = Metropolitan Sewerage District; n/a = not available (no samples were collected in the timeframe).

*Denotes a correlation coefficient that is statistically significant ($p < 0.05$).
