### Questions about your experiences in relation to mental health

Thank you for taking the time to assist us in our research. To make it easier for you to participate, you can start the questionnaire, log off and return to it later.

We are interested in knowing more about your mental health. Some of the questions are sensitive and may be difficult to answer. Please try to answer as many questions as you can and give the most accurate answers possible. However, if you cannot answer a question, you can always choose the “don’t know” or “prefer not to answer” option where available, or skip the question and move on.

**If you are concerned about answering these questions, it may be preferable to fill out this survey in the presence of someone who is able to give you support (e.g. a friend or family member).**

Information on where to find help for the issues covered in this questionnaire is given at the end of the survey.

Please note that this questionnaire will not be used to provide you with a diagnosis, your responses will only be used to assess your eligibility to take part in the Eating Disorders Genetics Initiative (EDGI).

If you would like to receive a formal diagnosis, please contact your GP. For more information and support on eating disorders, please visit the Beat website or visit the ‘Useful Links’ page on the EDGI website.

Please answer each question. If you are unsure, please give us your best guess or estimate.

Please do not use your browser's back button while taking this survey. If you need to return to a previous question, please use the back button at the bottom left corner of this survey.

## 1 – Demographics and personal information (Edited Common Subject Assessment)

### Questions about you and your medical history

These questions are about you and your medical health. There are no right or wrong answers. You can put "Don't know".

#### 1.1) How old are you now?

**If over 16, please continue to question 1.2. If under 16 participants will receive this message:**

Thank you for your interest in taking part in the Eating Disorders Genetics Initiative. We appreciate your support and willingness to take part in research.

We are currently only recruiting participants who are **16 or over** and who **live in England**. If you are under the age of 16 and would still like to take part in the BioResource as a volunteer, please contact [edgi@kcl.ac.uk](mailto:edgi@kcl.ac.uk).

Unfortunately, we are not currently recruiting participants **in other parts of the UK**. However, we will be expanding our research scope in due course.

You have received this message because you have confirmed that you are **under 16** or live **outside of England**. At this time, you are **not eligible** to take part in the EDGI, but if you live in the UK we will contact you when recruitment becomes available in your area. If you are currently under 16, please sign-up again when you have turned 16.

If you live **outside of England** however you attend an **NHS service within England**, please email or call us as you may still be eligible to take part.

**If you believe you have received this message by mistake, please contact the study team on FREEPHONE: 0800 917 6016 or via email to [EDGI@kcl.ac.uk](mailto:EDGI@kcl.ac.uk)**
