Table S3. Overarching coding tree structure

1. Context-related aspects of the qualification model
 - 1.1 Duration and density
 - 1.2 Professional credentialing
 - 1.3 Program objectives
 - 1.4 Recruitment and selection process
 - 1.5 Stakeholder involvement
 - 1.6 Resources
 - 1.7 Setting
2. Content-related aspects of a qualification model
 - 2.1 Integration of content into program
 - 2.1.1 Horizontal Integration
 - 2.1.2 Vertical Integration
 - 2.2 Training & education forms
 - 2.2.1 Teacher-centered training forms
 - 2.2.2 Interaction of participants
 - 2.2.3 Exposure to practice
 - 2.3 Didactical concepts
 - 2.4 Measurability and assessment
3. Translation into a qualification model
 - 3.1 Workshops, seminars and trainings
 - 3.2 Hospitation (e.g. internship) in PH-institutions
 - 3.3 Master programs in public health
 - 3.4 PhD-programs in public health
 - 3.5 Integration of PH into medical curricula
 - 3.6 Postgraduate/Trainee programs
 - 3.7 Rotation model practice and science
 - 3.8 Peer Mentoring
 - 3.9 Labelling
4. Consolidation and further development
 - 4.1 Piloting
 - 4.2 Dissemination
 - 4.3 Evaluation and quality assessment
 - 4.3.1 Evaluation methods
 - 4.3.2 Factors and barriers for program success
 - 4.3.3 Reaction (Level 1)
 - 4.3.4 Learning (Level 2)
 - 4.3.5 Behavior (Level 3)
 - 4.3.6 Results (Level 4)
 - 4.3.7 ROI (Level 5)
 - 4.4 Transferability
 - 4.5 Continuous program development

Table S4. Sampling plan

Current activity in the PHS	Current activity at a university	Early career professionals	International perspective
<i>Federal level:</i> ID01, ID10, ID15, ID17	ID02, ID03, ID04, ID08, ID09, ID13, ID14, ID16, ID20, ID21, ID23	ID10, ID11, ID14, ID15, ID17	ID03, ID06, ID07, ID09, ID19, ID20, ID21, ID24
<i>State level:</i> ID04, ID12			
<i>local level:</i> ID05, ID11, ID18, ID22, ID24			

Table S5. Characteristics of the studies included in the scoping review.

First Author (Year)	Ref	Short title	Country	Qualification program, main focus
Baxter (2016)	(62)	A new infection trainee education programme from the Healthcare Infection Society	UK	Structured education program focusing on infection training and including infection prevention and control (IPC)
Bennetts (2012)	(73)	Continuing professional development for public health: an andragogical approach	UK	Continuing professional development (CPD)
Buunaaisie (2018)	(71)	Employability and career experiences of international graduates of MSc Public Health: a mixed methods study	UK	Master of Science Program (MSc)
Chastonay (2012)	(72)	Design, implementation and evaluation of a community health training program in an integrated problem-based medical curriculum	CH	6-year longitudinal and multidisciplinary Community Health Program (CHP)
Cheetham (2018)	(51)	Embedded research: a promising way to create evidence-informed impact in public health?	UK	Embedded research (ER) co-located between academia and local health authority (LHA)
Currie (2020)	(52)	Public Health Ausbildung in Österreich. Ein Überblick	UK, AU	Specialty public health training
Dey (2019)	(63)	The United Kingdom Field Epidemiology Training Programme: meeting programme objectives	UK	Field epidemiology training programmes (FETP)
Diem (2016)	(64)	Prevention and control of noncommunicable diseases through evidence-based public health: implementing the NCD 2020 action plan	AT	Capacity building efforts focusing on knowledge translation for non-communicable diseases (NCD)
Dorner (2014)	(53)	Long-Term Evaluation of a Course on Evidence-Based Public Health in the U.S. and Europe	AT	Postgraduate public health university courses and public health doctoral programs
Erwin (2014)	(54)	Long-Term Evaluation of a Course on Evidence-Based Public Health in the U.S. and Europe	US	Evidence-based public health course
Gerhardus (2017)	(74)	Public Health als anwendungsorientiertes Fach und Multidisziplin – „Forschendes Lernen“ als Antwort auf die Herausforderungen für Lehren und Lernen?	DE	Research-based learning approaches within a student-led research project
Gillam (2016)	(69)	Public health education in UK medical schools-towards consensus	UK	Consensus statement to support the development of learning environments for public health; public health rotation
Gray (2018)	(55)	Developing the public health workforce: training and recognizing specialists in public health from backgrounds other than medicine: experience in the UK	UK	Multidisciplinary training of senior public health specialists; Registry for public health specialists
Harrison (2015)	(56)	The effect of using different competence frameworks to audit the content of a masters program in public health	UK	Competence frameworks in master public health programs
Heller (2017)	(57)	Open Online Courses in Public Health: experience from Peoples-uni	UK	Open Online Courses (OOCs) as open educational resources
Idler (2016)	(58)	Prevention and health promotion from theory to practice: The interprofessional MeMPE Summer University for students of Medicine, Master of Public Health and Epidemiology	DE	Interprofessional Seminar on prevention and health promotion in the course of a summer university

Jansen (2013)	(59)	A masterclass to teach public health professionals to conduct practice-based research to promote evidence-based practice: a case study from The Netherlands	NL	Masterclass for public health professionals focusing on practice-based research skills
Könings (2018)	(60)	Is blended learning and problem-based learning course design suited to develop future public health leaders?	NL	Problem-based, blended learning method in a virtual learning environment
McCulloch (2014)	(67)	Developing capacity in field epidemiology in England	UK	Field epidemiology training programmes (FETP)
Peik (2016)	(65)	Comparison of public health and preventive medicine physician specialty training in six countries: Identifying challenges and opportunities	US	Descriptive profiles of national training demographics and structures of Public health and preventive medicine (PHPM) specialties
Ramsay (2014)	(61)	The Structured Operational Research and Training Initiative for public health programmes	CH	Structured operational research and training initiative
Salway (2013)	(76)	Improving capacity in ethnicity and health research: report of a tailored programme for NHS Public Health practitioners	UK	Tailored program focusing on research capacity development
Smith (2015)	(68)	Principles of all-inclusive public health: developing a public health leadership curriculum	UK	Curriculum development focusing on public health leadership skills
Tran (2017)	(75)	In-house peer supported literature search training: a public health perspective	UK	Peer supported literature search training course; Knowledge and library service (KLS)
Turner-Wilson (2017)	(70)	Can nurses rise to the public health challenge? How a novel solution in nurse education can address this contemporary question	UK	Public health improvement theme running throughout an undergraduate nursing curriculum
