Database search papers screened out at full text stage, with reasons for exclusion

Reference	Reason	Comments
Addis, B., et al. (2022). "Virtual elective placements for medical students during COVID-19." <i>Medical Education</i> 56 (5): 576-577.	Wrong Research Type	Commentary piece. Also consisted of observing cases over video conferencing. No outcome measures reported.
Aster, A., et al. (2022). "Use of a Serious Game to Teach Infectious Disease Management in Medical School: effectiveness and Transfer to a Clinical Examination." <i>Frontiers in medicine</i> 9 .	Wrong Concept	The aim was to compare it to an OSCE and see if it could substitute - so it's about assessment
Betts, L., et al. (2020). "Using Virtual Interactive Digital Simulator to Enhance Simulation Experiences for Undergraduate Nursing Students." <i>Nursing education perspectives</i> 41 (3): 193-194.	Wrong Concept	Patient simulator in a touch-table format for simulations in a centre
Bradford, H. M., et al. (2021). "Rapid Curricular Innovations During COVID-19 Clinical Suspension: Maintaining Student Engagement with Simulation Experiences." <i>Journal of midwifery & women's health</i> 66 (3): 366-371.	Wrong Research Type	There were several innovations but not one set VSP described - aside from the OSCEs, many of the activities were optional and could substitute for some clinical hours.
Cárdenas-Cruz, A., et al. (2022). "An example of adaptation: experience of virtual clinical skills circuits of internal medicine students at the Faculty of Medicine, University of Granada (Spain) during the COVID-19 pandemic." <i>Med Educ Online</i> 27 (1): 2040191.	Wrong Concept	Was a combination of classroom work and clinical skill circuits (equivalent to OSCE style set up)
Castro, M. R. H., et al. (2021). "Lessons From Learners: Adapting Medical Student Education During and Post COVID-19." <i>Academic medicine : journal of the Association of American Medical Colleges</i> 96 (12): 1671-1679.	Wrong Concept	The placements weren't simulations, but real patient contact facilitated over telemedicine
Chircop, A. and S. Cobbett (2020). "Gett'n on the bus: evaluation of Sentinel City [®] 3.0 virtual simulation in community/population health clinical placement." <i>International Journal of Nursing Education Scholarship</i> 17 (1).	Wrong Concept	The agency/neighbourhood component of the placement was replaced with VSim, but all subjects continued the concurrent parts of their training
Ctri (2021). "Clinical virtual simulation is effective in nursing education." https://trialsearch.who.int/Trial2.aspx?TrialID=CTRI/2021/01/030826 .	Wrong Research Type	This is a protocol for a future study

Reference	Reason	Comments
DePietro, D. M., et al. (2021). "Medical Student Education During the COVID-19 Pandemic: Initial Experiences Implementing a Virtual Interventional Radiology Elective Course." <i>Academic Radiology</i> 28(1): 128-135.	Wrong Concept	Discussions were based on real - rather than simulated patients
Elsayes, K. M., et al. (2021). "Multidisciplinary Approach in Teaching Diagnostic Radiology to Medical Students: The Development, Implementation, and Evaluation of a Virtual Educational Model." <i>Journal of the American College of Radiology : JACR</i> 18(8): 1179-1187.	Wrong Context	Wasn't a placement - it was a series of 10 case based, 1 hr lectures
Feeley, A., et al. (2021). "Bedside teaching from a distance; surgical education in the COVID era." <i>British journal of surgery</i> 108: vi231-.	Wrong Concept	Not a simulation - remote interaction with the hospital patients was facilitated through smart glasses
Feeley, A., et al. (2022). "Student Acceptance of Virtual Bedside Surgical Tutorials During COVID-19; A Randomized Control Trial." <i>Journal of Surgical Research</i> 270: 261-265.	Wrong Concept	Not a simulation - remote interaction with the hospital patients was facilitated through smart glasses - appears to be the same study as the conference proceedings by the same author
Foohy, S., et al. (2022). "Developing the Virtual Resus Room: Fidelity, Usability, Acceptability, and Applicability of a Virtual Simulation for Teaching and Learning." <i>Academic medicine : journal of the Association of American Medical Colleges</i> 97(5): 679-683.	Wrong Context	The focus was on the VRR and there was mention of the 2 simulation cases being integrated into a VSP but no detail on it
Goldenson, R. P., et al. (2022). "The Virtual Homeroom: Utility and Benefits of Small Group Online Learning in the COVID-19 Era." <i>Current problems in diagnostic radiology</i> 51(2): 152-154.	Wrong Concept	This is the same study as Durfee (included) - but the focus was on the homerooms within the clerkship
Grady, Z. J., et al. (2022). "From the Operating Room to Online: Medical Student Surgery Education in the Time of COVID-19." <i>The Journal of surgical research</i> 270: 145-150.	Wrong Context	A 2 week non-clinical elective to prepare and generate interest in surgical placements
Guerandel, A., et al. (2021). "An approach to teaching psychiatry to medical students in the time of Covid-19." <i>Ir J Psychol Med</i> 38(4): 293-299.	Wrong Concept	The online module replaces 2 of the 6 weeks of the placement
Gummerson, C. E., et al. (2021). "Broadening learning communities during COVID-19: developing a curricular framework for telemedicine education in neurology." <i>BMC medical education</i> 21(1): 549.	Wrong Concept	The virtual rounds were based on real rather than simulated patients, with the opportunity to read their notes and/or have a telemedicine interview before the lessons

Reference	Reason	Comments
He, Z. and C. Xiong (2021). Design and Application of Rehabilitation Psychology Practical Teaching System Based on VR Technology.	Wrong Context	Replaced a traditional mode without practical operation due to lack of resources to rehab disabled patients - so this was a university module rather than a placement
Hwang, G.-J., et al. (2022). "The effectiveness of the virtual patient-based social learning approach in undergraduate nursing education: A quasi-experimental study." Nurse education today 108: 105164.	Wrong Context	Examined the use of Virtual patients in a social learning framework and compared it to traditional teaching for 1 week - not a placement
Killam, L. A. and M. Luctkar-Flude (2021). "Virtual Simulations to Replace Clinical Hours in a Family Assessment Course: Development Using H5P, Gamification, and Student Co-Creation." Clinical Simulation in Nursing 57: 59-65.	Wrong Concept	In person component
Kullberg, M. L., et al. (2020). "E-learning to improve suicide prevention practice skills among undergraduate psychology students: Randomized controlled trial." JMIR Mental Health 7(1).	Wrong Context	e-learning module on suicidal behaviour - Not a placement
Lakhtakia R. Virtual Microscopy in Undergraduate Pathology Education: An early transformative experience in clinical reasoning. Sultan Qaboos Univ Med J. 2021 Aug;21(3):428-435. doi: 10.18295/squmj.4.2021.009. Epub 2021 Aug 29. PMID: 34522409; PMCID: PMC8407892.	Wrong Concept	conducted as a hybrid placement (computer lab)
Larraga-García, B., et al. (2021). "Design and Development of an Interactive Web-Based Simulator for Trauma Training: A Pilot Study." Journal of Medical Systems 45(11): 96.	Wrong Context	Single case virtual simulation
Margolin, E. J., et al. (2021). "Reimagining the Away Rotation: A 4-Week Virtual Subinternship in Urology." Journal of surgical education 78(5): 1563-1573.	Wrong Concept	includes a teleconferenced clinic with real patients, so not a simulation
Middeke, A., et al. (2020). "Transfer of Clinical Reasoning Trained With a Serious Game to Comparable Clinical Problems: a Prospective Randomized Study." Simulation in healthcare 15(2): 75-81.	Wrong Context	The emphasis was on whether clinical reasoning skills learned through the game could be applied in subsequent patient cases - not a placement
Mikhail, D., et al. (2021). "Changing the Status Quo: Developing a Virtual Sub-Internship in the Era of COVID-19." Journal of surgical education 78(5): 1544-1555.	Wrong Context	Not a placement, but a guidebook
Miller, A. and K. Guest (2021). "Rising to the Challenge: The Delivery of Simulation and Clinical Skills during COVID-19." Comprehensive child and adolescent nursing 44(1): 6-14.	Wrong Research Type	Discussion paper

Reference	Reason	Comments
Pal, A. D., et al. (2022). "Virtual Simulation for Advanced Practice Registered Nurse Students: Adapting to Shortage of Clinicals." <i>Journal for Nurse Practitioners</i> 18(5): 563-568.	Wrong Context	Virtual simulations credited 8 FTF placement hours
Ramjan, F., et al. (2021). "Psychiatry through a Screen: Adapting Training for a New Reality?" <i>Psychiatria Danubina</i> 33: 18-21.	Wrong Research Type	Commentary summarising curricular changes and student experiences but no specific VSP
Ray, J., et al. (2021). "Virtual Telesimulation for Medical Students During the COVID-19 Pandemic" <i>Academic medicine : journal of the Association of American Medical Colleges</i> 96(10) 1431-1435	Wrong Concept	Telecast activities from an in-person simulation - so not computer generated
Roberts, M. L. and J. O. E. Mazurak (2022). "Virtual Clinical Experiences in Nursing Education: Applying a Technology-Enhanced Storyboard Technique to Facilitate Contextual Learning in Remote Environments." <i>Nursing education perspectives</i> 43(4): 260-261.	Wrong Research Type	Storyboard technique for design detailed rather than a specific placement
Rosenthal, H. B., et al. (2021). "A Near-Peer Educational Model for Online, Interactive Learning in Emergency Medicine." <i>Western Journal of Emergency Medicine: Integrating Emergency Care with Population Health</i> 22(1): 130-135.	Wrong Context	Lecture series
Roskvist, R., et al. (2020). "Provision of e-learning programmes to replace undergraduate medical students' clinical general practice attachments during COVID-19 stand-down." <i>Education for primary care : an official publication of the Association of Course Organisers, National Association of GP Tutors, World Organisation of Family Doctors</i> 31(4): 247-254.	Wrong Research Type	General overview of their model - not empirical
Rydel, T. A., et al. (2021). "Hands Off Yet All In: A Virtual Clerkship Pilot in the Ambulatory Setting During the COVID-19 Pandemic." <i>Academic medicine : journal of the Association of American Medical Colleges</i> 96(12): 1702-1705.	Wrong Concept	Live rather than simulated telehealth sessions in the placement
Safdieh, J. E., et al. (2021). "Curricular response to COVID-19: real-time interactive telehealth experience (RITE) program." <i>Medical education online</i> 26(1): 1918609.	Wrong Concept	Live telehealth rather than simulated patients
Salem, J., et al. (2020). "Virtual Patient Journey: a novel learning resource." <i>The clinical teacher</i> 17(3): 315-319.	Wrong Context	3 x 8 min videos of an asthma patient's journey - not a placement

Reference	Reason	Comments
Santo, L. D., et al. (2022). "The emotional side of the e-learning among nursing students: The role of the affective correlates on e-learning satisfaction." <i>Nurse Educ Today</i> 110: 105268.	Wrong Research Type	Survey examining emotions and the cognitive and social dimensions of e-learning
Seymour-Walsh, A. E., et al. (2020). "Practical approaches to pedagogically rich online tutorials in health professions education." <i>Rural Remote Health</i> 20(2): 6045.	Wrong Research Type	Guidelines regarding designing online tutorials with sound pedagogical underpinnings
Shoemaker, M. M., et al. (2021). "Novel application of telemedicine and an alternate EHR environment for virtual clinical education: A new model for primary care education during the SARS-CoV-2 pandemic." <i>International Journal of Medical Informatics</i> 153: 104526.	Wrong Concept	Live telehealth rather than simulated patients
Smith, N., et al. (2021). "A mixed methods evaluation of the Paediatric Musculoskeletal Matters (PMM) online portfolio." <i>Pediatr Rheumatol Online J</i> 19(1): 85.	Wrong Context	e-learning analytics and a survey evaluation of online modules / app for paed MSK Ax - not a placement
Spear, L. G., et al. (2022). "Rethinking Clinical Trial Radiology Workflows and Student Training: Integrated Virtual Student Shadowing Experience, Education, and Evaluation." <i>Journal of digital imaging</i> 35(3): 723-731.	Wrong Context	Online resource to improve image measurement and reporting - not a placement
Srinivasan, S. L. and O. Burton (2021). "Is It Possible to Replicate a Surgical Placement for Medical Undergraduates Virtually in Response to the COVID-19 Pandemic?" <i>Journal of the American College of Surgeons</i> 233(5): e170-.	Wrong Research Type	Only an abstract - Contacted the author (via Researchgate) to retrieve the full study but no reply
Streitlein-Böhme, I., et al. (2021). "We can also do online - evaluation of the accompanying digital seminar of the elective subject "General Practice" during intership (PJ) at Ruhr-University Bochum." <i>GMS J Med Educ</i> 38(4): Doc73.	Wrong Concept	The online seminars were part of the placement - a FTF clinical had taken place prior
Svoboda, S. A., et al. (2021). "Inspired by COVID-19 isolation: Evolving educational techniques in dermatology residency programs." <i>Clinics in dermatology</i> 39(1): 41-44.	Wrong Research Type	Commentary regards telemedicine in dermatology clinical education
Teichgräber, U., et al. (2021). "Virtual inverted classroom to replace in-person radiology lectures at the time of the COVID-19 pandemic - a prospective evaluation and historic comparison." <i>BMC medical education</i> 21(1): 611.	Wrong Context	Physical converted to a virtual flipped classroom - not a placement

Reference	Reason	Comments
Tinoco, J. D. S., et al. (2021). "Effect of educational intervention on clinical reasoning skills in nursing: A quasi-experimental study." <i>Nurse education today</i> 105: 105027-.	Wrong Concept	Assessed an app for developing clinical reasoning skills - not a placement and also mentions a face-face stage
Twogood, R., et al. (2020). "Rapid implementation and improvement of a virtual student placement model in response to the COVID-19 pandemic." <i>BMJ open quality</i> 9(4).	Wrong Concept	Live telehealth rather than simulated patients
Urbanovi, E., et al. (2022). "Virtual patients: an option for future distance midwifery education?" <i>International Journal of Nursing Education Scholarship</i> 19(1).	Wrong Context	Detailed the design of a set of virtual patients but it was not conducted as a placement
Vielsmeier, V., et al. (2020). "Digital teaching with interactive case presentations of ENT diseases - discussion of utilisation and motivation of students." <i>GMS J Med Educ</i> 37(7): Doc100.	Wrong Concept	Has the option of an in-person component
Wade, S. W. T., et al. (2020). "Adaptive tutorials versus web-based resources in radiology: a mixed methods analysis in junior doctors of efficacy and engagement." <i>BMC medical education</i> 20(1): 303.	Wrong Context	Compared adaptive tutorials to web based learning in graduate doctors - not a placement
Walsh, H., et al. (2022). "Innovative Hospital-Based Pediatric Virtual Learning for Nursing Students." <i>Nurse Educator</i> 47(2): E30-E33.	Wrong Context	Not a placement - but some participants were able to credit 1-2 hours in place of FTF
Wands, L., et al. (2020). "Positive Outcomes of Rapid Freeware Implementation to Replace Baccalaureate Student Clinical Experiences." <i>The Journal of nursing education</i> 59(12): 701-704.	Wrong Concept	One resource used was augmented reality but the rest were virtual
Wang, M., et al. (2022). "Intelligent virtual case learning system based on real medical records and natural language processing." <i>BMC Med Inform Decis Mak</i> 22(1): 60.	Wrong Context	Documents the process of combining AI natural language processing and electronic notes - intended for an adjunct to clinical learning rather than a stand-alone placement
Wagh, S., Devin, J., Lam, A.KY. et al. E-learning and the virtual transformation of histopathology teaching during COVID-19: its impact on student learning experience and outcome. <i>BMC Med Educ</i> 22, 22 (2022). https://doi.org/10.1186/s12909-021-03066-z	Wrong Context	The intervention is replacing a classroom lesson (lectures & seminars). No mention of placement
Weber, A. M., et al. (2021). "An outpatient telehealth elective for displaced clinical learners during the COVID-19 pandemic." <i>BMC medical education</i> 21(1): 174.	Wrong Concept	Live telehealth rather than simulated patients

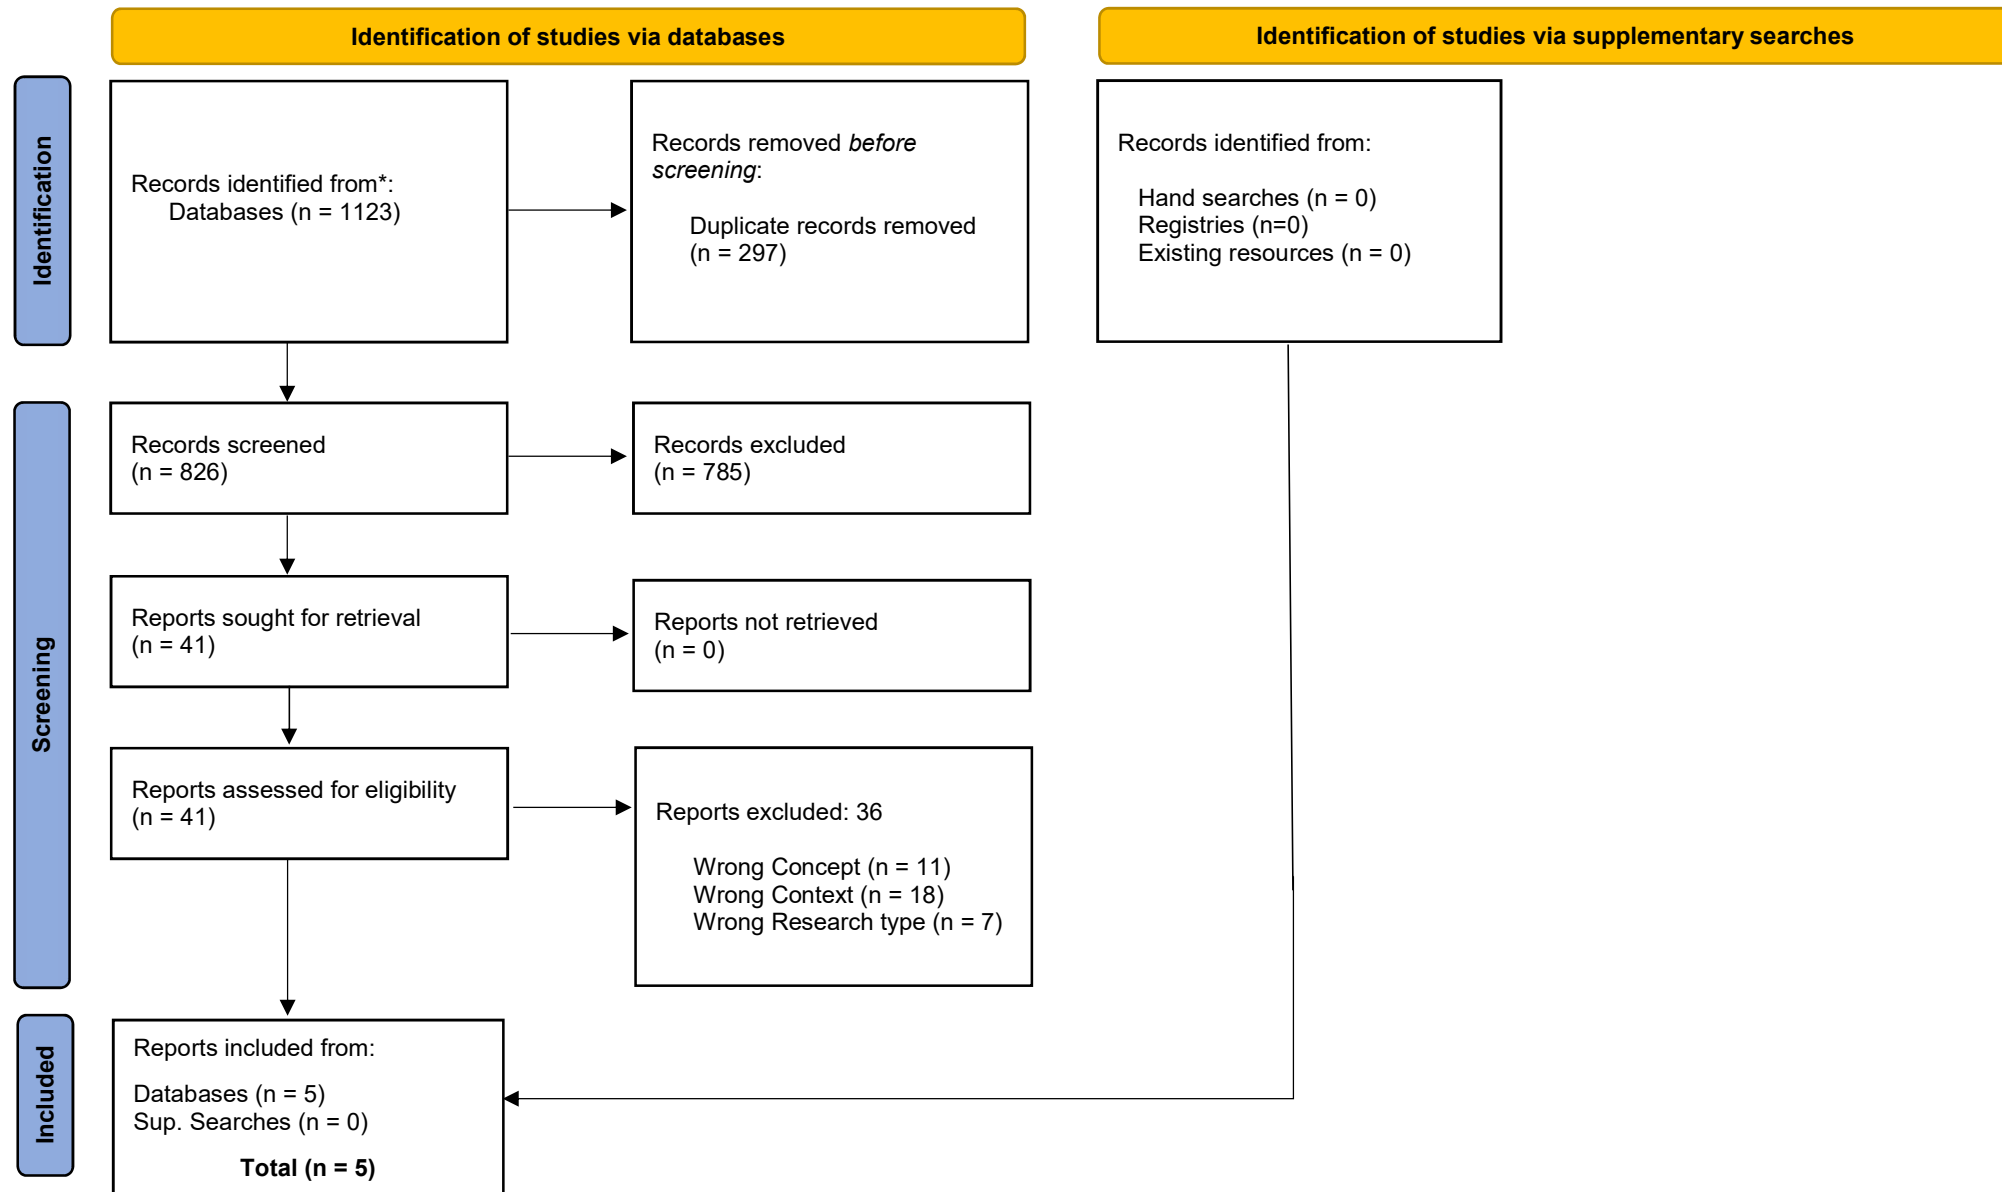

Reference	Reason	Comments
Weiss, M. E., et al. (2021). "Effectiveness of using a simulation combined with online learning approach to develop discharge teaching skills." <u>Nurse education in practice</u> 52 : 103024.	Wrong Concept	Intervention was focused on improving discharge planning - not a placement
Wendt, S., et al. (2021). "A virtual COVID-19 ophthalmology rotation." <u>Survey of ophthalmology</u> 66 (2): 354-361.	Wrong Concept	Included in person or video conferenced real patients
Wiese, L. K., et al. (2021). "Responding to a simulated disaster in the virtual or live classroom: Is there a difference in BSN student learning?" <u>Nurse education in practice</u> 55 : 103170.	Wrong Context	Single emergency disaster simulation - comparing live and virtual versions - not a placement
Williams, J., et al. (2022). "Development of a simulation placement in a pre-registration nursing programme." <u>British journal of nursing (Mark Allen Publishing)</u> 31 (10): 549-554.	Wrong Context	Blended
Winship, J. M., et al. (2020). "A case study in rapid adaptation of interprofessional education and remote visits during COVID-19." <u>Journal of Interprofessional Care</u> 34 (5): 702-705.	Wrong Concept	Live patient contact via telecoms rather than simulated patients
Wittenberg, E., et al. (2021). "COVID 19-transformed nursing education and communication competency: Testing COMFORT educational resources." <u>Nurse education today</u> 107 : 105105.	Wrong Context	Educational model to support COVID-19 related communication skills - not a placement
Wu, Y., et al. (2021). "Flipping the Passive Radiology Elective by Including Active Learning." <u>Canadian Association of Radiologists journal = Journal l'Association canadienne des radiologistes</u> 72 (4): 621-627.	Wrong Concept	Not virtual
Yan, H., et al. (2021). <u>Research on Real-time Medical Online Learning Content Recommendation based on Multi-view Data Mining.</u>	Wrong Concept	Data mining and analysis across MOOC platforms - not relevant

Database search papers screened out at full text stage, with reasons for exclusion

Reference	Reason	Comment
Aubrey, C., et al. (2022). "Using simulated placements to promote inclusive practices: a higher education institution faculty's experience of delivery."	wrong study type	Selected abstracts
Chan, P. P., et al. (2023). "Flipped Classroom Case Learning vs Traditional Lecture-Based Learning in Medical School Ophthalmology Education: a Randomized Trial." <i>Academic medicine</i> .	wrong concept	There is a component of FTF / classroom work
Cieslowski, B., et al. (2023). "The Development and Pilot Testing of Immersive Virtual Reality Simulation Training for Prelicensure Nursing Students: A Quasi-Experimental Study." <i>Clinical Simulation in Nursing</i> 77: 6-12.	wrong concept	IVR group also participated in clinical cases, so hybrid
Duffy B, Tully R, Stanton AV. An online case-based teaching and assessment program on clinical history-taking skills and reasoning using simulated patients in response to the COVID-19 pandemic. <i>BMC Med Educ</i> . 2023 Jan 4;23(1):4. doi: 10.1186/s12909-022-03950-2. PMID: 36600232; PMCID: PMC9811710.	wrong concept	Use of telecast simulated patients
Elnaga, H. H. A., et al. (2023). "Virtual versus paper-based PBL in a pulmonology course for medical undergraduates." <i>BMC medical education</i> 23(1): 433.	wrong context	2 clinical cases in one module - not a placement
Hardin, L. M., et al. (2022). "Innovative Team Approach for Achieving DNP Program Competencies for Distance Learners During the COVID-19 Pandemic." <i>Nursing education perspectives</i> 43(5): 318-320.	wrong study type	Report without any measurement of student outcomes
Henze, S. M., et al. (2022). "Digital adaptation of teaching disaster and deployment medicine under COVID-19 conditions: a comparative evaluation over 5 years." <i>BMC medical education</i> 22(1): 717.	wrong context	A course rather than a placement
Herrmann-Werner, A., et al. (2022). "Where there are challenges, there are opportunities: An undergraduate medical students' teaching concept for mental health in times of COVID-19." <i>PloS one</i> 17(11): e0277525.	wrong context	Teaching course converted online: Not a placement

Reference	Reason	Comment
Ijaz, A., et al. (2023). "Online learning: an effective option for teaching ENT to medical students?" <i>The Journal of laryngology and otology</i> 137(5): 560-564.	wrong context	Not a placement
Khanittanuphong, P., et al. (2022). "The impact of the transition from flipped classroom to online lectures on learning outcomes and student satisfaction in a rehabilitation medicine clerkship during the COVID-19 pandemic." <i>BMC medical education</i> 22(1): 885.	wrong context	Comparing the flipped classroom component of a clerkship and it's switch to online lectures - not a placement
Kumar, P. R., et al. (2022). "F1-taught orthopaedic teaching programme for students (FOTS)." <i>Postgraduate Medical Journal</i> 98(1163): 710-717.	wrong context	6 x 60 min weekly joint assessment session - not a placement
Liaw, S. Y., et al. (2023). "Effectiveness of an online program using telesimulation for academic-clinical collaboration in preparing nurse preceptors' roles." <i>Journal of Clinical Nursing (John Wiley & Sons, Inc.)</i> 32(7): 1115-1124.	wrong concept	Students role played the simulated telemedicine session in VR over zoom
Liu, C., et al. (2023). "Beyond Skin Deep: case-based online modules to teach multidisciplinary care in dermatology among clerkship students." <i>BMC medical education</i> 23(1): 90.	wrong context	An online pre-clerkship for a FTF clerkship - not a placement
Lubinski, B. and A. Weinstein (2022). "Working together but physically siloed-telehealth and interprofessional education among medicine clerkship students." <i>Journal of general internal medicine</i> 37: S662.	wrong study type	Selected abstract
McAllister, L. L., et al. (2022). "A descriptive case report of telesupervision and online case-based learning for speech and language therapy students in Vietnam during the COVID-19 pandemic." <i>The South African journal of communication disorders = Die Suid-Afrikaanse tydskrif vir Kommunikasieafwykings</i> 69(2): e1-e6.	wrong concept	Live patient sessions were broadcast - not computer generated
Mergen, M., et al. (2023). "Immersive training of clinical decision making with AI driven virtual patients - a new VR platform called medical tr.AI.ning." <i>GMS journal for medical education</i> 40(2): Doc18.	wrong study type	Research plan
Meyer, E. G., et al. (2023). "The Effectiveness of Online Experiential Learning in a Psychiatry Clerkship." <i>Acad Psychiatry</i> 47(2): 181-186.	wrong concept	Use of simulated patients over telecoms - not computer generated

Reference	Reason	Comment
O'Connor, M. and L. Rainford (2023). "The impact of 3D virtual reality radiography practice on student performance in clinical practice." Radiography (London, England : 1995) 29(1): 159-164.	wrong concept	7 hours VR practice within a 4 week placement
Omlor, A. J., et al. (2022). "Comparison of immersive and non-immersive virtual reality videos as substitute for in-hospital teaching during coronavirus lockdown: a survey with graduate medical students in Germany." Med Educ Online 27(1): 2101417.	wrong context	Observation replaced - but not a placement
Petersen, K., et al. (2023). "Online Virtual Patient Cases vs. Weekly Classroom Lectures in an Internal Medicine Clerkship: Effects on Military Learner Outcomes." Military Medicine 188(5): 914-920.	wrong context	The Virtual Patient was a substitute for lectures. Didactic content - Not a Placement
Salje, J. and M. Moyo (2023). "Implementation of a virtual student placement to improve the application of theory to practice." British journal of nursing (Mark Allen Publishing) 32(9): 434-441.	wrong concept	One day teaching on campus (hybrid)
Schoenherr, D. T., et al. (2022). "Development and evaluation of an online integrative histology module: simple design, low-cost, and improves pathology self-efficacy." Medical education online 27(1): 2011692.	wrong context	Course rather than a placement
Shen, A. H., et al. (2022). "Designing a Plastic and Reconstructive Surgery Virtual Curriculum: Assessment of Medical Student Knowledge, Surgical Skill, and Community Building." Plastic and reconstructive surgery 150(3): 691-700.	wrong study type	Selected abstract
Shin, H. and D. Rim (2023). "Development and assessment of a curriculum model for virtual simulation in nursing: curriculum development and pilot-evaluation." BMC medical education 23(1): 284.	wrong context	Not a placement (yet)
Shorey, S., et al. (2023). "Evaluation of a Theory-Based Virtual Counseling Application in Nursing Education." Computers, informatics, nursing : CIN 41(6): 385-393.	wrong context	Not a placement
Showstark, M., et al. (2023). "Results and lessons learned from a virtual multi-institutional problem-based interprofessional learning approach: The VIPE program." Journal of Interprofessional Care 37(1): 164-167	wrong context	Not a placement

Reference	Reason	Comment
Su, J., et al. (2023). "Effects of a virtual simulation-based interprofessional education activity for rehabilitation nursing using shared resources: A quasi-experimental study." <i>Nurse education today</i> 126: 105832.	wrong context	Not a placement - but an activity
Thirsk, L. M., et al. (2022). "Effect of online versus in-person clinical experiences on nursing student's competency development: A cross-sectional, quasi-experimental design." <i>Nurse education today</i> 117: 105461.	wrong study type	Focus on the surveys rather than description of the online placement
Uraiby, H., et al. (2022). "Fostering intrinsic motivation in remote undergraduate histopathology education." <i>Journal of clinical pathology</i> 75(12): 837-843.	wrong concept	The facilitator acted as a virtual patient on screen - not computer generated / virtual simulation
Uzun Aksoy, M., et al. (2023). "The effectiveness of the using scenario and video in distance nursing education during COVID-19 pandemic." <i>Teaching & Learning in Nursing</i> 18(1): 24-29.	wrong context	Not a placement
Varachotisate, P., et al. (2023). "Student academic performance in non-lecture physiology topics following the abrupt change from traditional on-site teaching to online teaching during COVID-19 pandemic." <i>Medical education online</i> 28(1): 2149292.	wrong context	Pre-clerkship theory focussed teaching - not a placement
Vives, M., et al. (2023). "Teaching Psychotherapy to Psychiatric/Mental Health Nurse Practitioner Students in the Virtual Classroom." <i>Issues in Mental Health Nursing</i> 44(6): 551-561.	wrong context	Skills based course: Not a placement
Vogt, L., et al. (2022). "Telemedicine in medical education: An example of a digital preparatory course for the clinical traineeship - a pre-post comparison." <i>GMS journal for medical education</i> 39(4): Doc46.	wrong concept	Simulated (standardised) patients are used over telemedicine - not computer generated
Wicks, S. K., et al. (2023). "Anaesthetic National Teaching Programme for Students (ANTPS)." <i>Postgraduate Medical Journal</i> 99(1172): 613-623.	wrong context	A course, not a placement
Wojniusz, S., et al. (2022). "Active digital pedagogies as a substitute for clinical placement during the COVID-19 pandemic: the case of physiotherapy education." <i>BMC medical education</i> 22(1): 843.	wrong concept	A FTF history and assessment were included as an activity
