

MVP-ROAR 6-MONTH SURVEY

"Hello, this is [STUDY STAFF NAME] from the MVP-ROAR study. May I please speak to [PARTICIPANT NAME]?"

"Good morning/afternoon/evening. You recall that you enrolled in the MVP-ROAR study about 6 months ago. I'm now calling to see if this would be a good time for you to complete your follow-up survey with me over the phone. This will take about 20 minutes. Is this a good time for us to complete the survey?"

[IF NO] "When would be another day and time when it would be more convenient for us to call you back for the survey?"

"Thank you. This survey will ask you a few questions about yourself and your health care. You answered some of these questions 6 months ago, and we want to see if your responses to those questions have changed. You may choose to skip any of these questions that you do not wish to answer."

1. MEDICATIONS

"Before administering the survey, I'd like to ask you about the medications you take. I am looking at a list of your VA prescriptions. Can you confirm if you are currently taking the following medications?"

[Study staff reads the name of each medication with an active VA prescription one at a time, noting each medication as *Taking, Not Taking, or I'm Not Sure/I Don't Know.*]

"Are there any other prescription medications you take, either from a VA provider or from a provider outside of the VA?"

[Study staff notes name, dose, and frequency of any medication the participant identifies. If participant does not know or have all of this information, study staff may ask the participant to call back with the information at a later time.]

"Are there any over-the-counter medications, vitamins, or other supplements that you take?"

[Study staff notes name, dose, and frequency of any medication the participant identifies. If participant does not know or have all of this information, study staff may ask the participant to call back with the information at a later time. Once collected, study staff may complete the remaining portions of the survey by phone. The below survey may also be administered in paper form by participant request.]
