

Additional file 4. Included studies that assessed home-based comprehensive sexual health care (n=92)

Type	Study design	First author	Year	Full title	N	Target population	Continent
Intervention	Non-randomized studies	Agusti	2020	Outreach HIV testing using oral fluid and online consultation of the results: Pilot intervention in Catalonia	834	MSM, (migrant)SW, TGW	Europe
Intervention	Mixed methods studies	Ahmed-Little	2016	Attitudes towards HIV testing via home-sampling kits ordered online (RUClear pilots 2011-12)	3062	General population (higher risk)	Europe
Intervention	Randomized controlled trial	Asiimwe	2014	Accuracy of un-supervised versus provider-supervised self-administered HIV testing in Uganda: A randomized implementation trial	246	Fishing community	Africa
Acceptability	Quantitative descriptive studies	Babatunde	2022	Assessment of knowledge and acceptability of HIV self-testing among students of selected universities in southwest Nigeria: an online cross-sectional study	155	Undergraduate students	Africa
Intervention	Non-randomized studies	Baraitser	2019	Using a Theory-based SMS/VM Intervention to Improve Sexual and Reproductive Health of Female Entertainment Workers in Cambodia	1466	General population	Europe
Intervention	Non-randomized studies	Belza	2014	Low knowledge and anecdotal use of unauthorized online HIV self-test kits among attendees at a street-based HIV rapid testing programme in Spain	3340	MSM and MSW	Europe
Intervention	Randomized controlled trial	Biello	2021	HIV self-testing and STI self-collection via mobile apps: experiences from two pilot randomized controlled trials of young men who have sex with men	QNT 80 QLT 37	(Y)MSM	North America
Intervention	Non-randomized studies	Cannon	2022	Feasibility of a novel self-collection method for blood samples and its acceptability for future home-based PrEP monitoring	141	People who use PrEP ^{&}	North America
Intervention	Mixed methods studies	Carballo-Diéguéz	2012	Willingness to participate in HIV therapeutic vaccine trials among HIV-infected patients on ART in China	57	MSM	North America

Intervention	Non-randomized studies	Catania	2020	Oral HIV Self-Implemented Testing: Performance Fidelity Among African American MSM	178	(AA) MSM	North America
Intervention	Mixed methods studies	Chasco	2021	Mixed-Methods Evaluation of the Incorporation of Home Specimen Self-Collection Kits for Laboratory Testing in a Telehealth Program for HIV Pre-exposure Prophylaxis	QNT 77 QLT 21	People who use PrEP ^{&}	North America
Intervention	Non-randomized studies	Chiu	2016	Correlates of requesting home HIV self-testing kits on online social networks among African-American and Latino men who have sex with men	AA/L 76 MSM 36	(AA/Latino) MSM	North America
Acceptability	Quantitative descriptive studies	Clarke	2022	Assessment of online self-testing and self-sampling service providers for sexually transmitted infections against national standards in the UK in 2020	31	General population	Europe
Acceptability	Quantitative descriptive studies	Cushman	2019	Attitudes and preferences regarding the use of rapid self-testing for sexually transmitted infections and HIV in San Diego area men who have sex with men	109	MSM	North America
Acceptability	Qualitative study	Daniels	2018	Getting HIV self-test kits into the home for young African American MSM in Los Angeles: A qualitative report	21	(YAA) MSM	North America
Acceptability	Quantitative descriptive studies	d'Elbée	2018	Preferences for linkage to HIV care services following a reactive self-test: discrete choice experiments in Malawi and Zambia	941	(Black African) General population	Africa
Acceptability	Qualitative study	Dodds	2018	Acceptability of HIV self-sampling kits (TINY vial) among people of black African ethnicity in the UK: a qualitative study	FGD=12 IDI= 9	People with African ethnicity	Europe
Intervention	Non-randomized studies	Driver	2017	HIV testing within the African community using home-based self collection of oral samples	100	African community	Australia
Acceptability	Quantitative descriptive studies	Dulai	2021	Awareness of and intention to use an online sexually transmitted and blood-borne infection testing service among gay and	1272	(GB)MSM	North America

				bisexual men in British Columbia, two years after implementation			
Acceptability	Qualitative study	Eaton	2018	Do young black men who have sex with men in the deep south prefer traditional over alternative STI testing?	36	(YB)MSM	North America
Intervention	Non-randomized studies	Elliot	2016	Identifying undiagnosed HIV in men who have sex with men (MSM) by offering HIV home sampling via online gay social media: A service evaluation	17361	MSM, female sex workers(FSW), young women	Europe
Intervention	Non-randomized studies	Fisher	2015	Home sampling for sexually transmitted infections and HIV in men who have sex with men: A prospective observational study	574	MSM	Europe
Acceptability	Mixed methods studies	Flowers	2017	Preparedness for use of the rapid result HIV self-test by gay men and other men who have sex with men (MSM): a mixed methods exploratory study among MSM and those involved in HIV prevention and care	QNT 999 QLT 55	MSM	Europe
Intervention	Mixed methods studies	Frasca	2014	Attitude and behavior changes among gay and bisexual men after use of rapid home HIV tests to screen sexual partners	27	(GB)MSM	North America
Acceptability	Qualitative study	Freeman	2018	Perceptions of HIV Self-Testing Among Men Who Have Sex With Men in the United States: A Qualitative Analysis	46	MSM	North America
Intervention	Mixed methods studies	Giguere	2020	Use of self-management tools in an online support service - Who, what, how?	279	TGSW	North America
Acceptability	Quantitative descriptive studies	Goense	2022	Intention to use and acceptability of home-based sexual health care among men who have sex with men who previously attended clinic-based sexual health care	154	(clinic visiting) MSM	Europe
Intervention	Non-randomized studies	Grov	2016	Recruiting A US national sample of HIV-negative gay and bisexual men to complete at-home self-administered HIV/STI testing and surveys: Challenges and opportunities	5010	(GB)MSM	North America

Intervention	Non-randomized studies	Grov	2019	Recruiting vulnerable populations to participate in HIV prevention research: findings from the Together 5000 cohort study	1071	At-risk men, TGW, TGM	North America
Acceptability	Quantitative descriptive studies	Han	2014	HIV self-testing among online MSM in China: implications for expanding HIV testing among key populations	1342	MSM	Asia
Acceptability	Quantitative descriptive studies	Hoyos	2016	Knowledge, actual and potential use of HIV self-sampling testing kits among MSM recruited in eight European countries	8226	MSM	Europe
Intervention	Non-randomized studies	Hoyos	2013	Never tested for HIV in Latin-American migrants and Spaniards: prevalence and perceived barriers	5920	Migrants	Europe
Acceptability	Quantitative descriptive studies	Iiyasu	2020	Acceptability and correlates of HIV self-testing among university students in northern Nigeria	399	University students	Africa
Intervention	Non-randomized studies	Jin	2019	An Internet-Based Self-Testing Model (Easy Test): Cross-Sectional Survey Targeting Men Who Have Sex With Men Who Never Tested for HIV in 14 Provinces of China	879	MSM	Asia
Intervention	Mixed methods studies	John	2019	Gay and bisexual men's experiences using self-testing kits for HIV and rectal and urethral bacterial sexually transmitted infections: Lessons learned from a study with home-based testing	QNT 1070 QLT 11	MSM	North America
Acceptability	Mixed methods studies	Kaneko	2022	Increasing access to HIV testing for men who have sex with men in Japan using digital vending machine technology	QNT 222 QLT 54	MSM	Asia
Acceptability	Qualitative study	Kelvin	2020	Choice in HIV testing: the acceptability and anticipated use of a self-administered at-home oral HIV test among South Africans	20	General population	Africa
Intervention	Randomized controlled trials	Kelvin	2018	Offering self-administered oral HIV testing to truck drivers in Kenya to increase testing: a randomized controlled trial	305	(Black African) Truck drivers	Africa
Intervention	Qualitative study	Knight	2019	Qualitative analysis of the experiences of gay, bisexual and other men who have sex with	37	MSM	North America

				men who use GetCheckedOnline.com: a comprehensive internet-based diagnostic service for HIV and other STIs			
Acceptability	Quantitative descriptive studies	Lau	2020	Prevalence of and factors associated with behavioral intention to take up home-based HIV self-testing among male clients of female sex workers in China - an application of the Theory of Planned Behavior	303	(M)C(F)SW	Asia
Intervention	Non-randomized studies	Lebina	2019	Influence of CYP2B6 and ABCB1 SNPs on nevirapine plasma concentrations in Burundese HIV-positive patients using dried sample spot devices	2061	Men, young women and sex workers (SW)	Africa
Acceptability	Quantitative descriptive studies	Leenen	2022	HIV testing and associated factors in men who have sex with men by urbanization-level: A cross-sectional study in the Netherlands	3815	MSM	Europe
Acceptability	Mixed methods studies	Leenen	2021	Systematic Development of an Intervention to Promote Self-Sampling for HIV and Sexually Transmitted Infections for Men Who Have Sex With Men: An Intervention Mapping Approach	110	MSM	Europe
Intervention	Non-randomized studies	Lippman	2018	High Acceptability and Increased HIV-Testing Frequency After Introduction of HIV Self-Testing and Network Distribution Among South African MSM	127	MSM	Africa
Intervention	Mixed methods studies	Loos	2016	Acceptability of a Community-Based Outreach HIV-Testing Intervention Using Oral Fluid Collection Devices and Web-Based HIV Test Result Collection Among Sub-Saharan African Migrants: A Mixed-Method Study	QNT 780 QLT 10	(African) Migrants	Europe
Intervention	Non-randomized studies	MacGowan	2018	Pilot evaluation of the ability of men who have sex with men to self-administer rapid HIV tests prepare dried blood spot cards and interpret test results Atlanta Georgia 2013	22	MSM	North America

Intervention	Non-randomized studies	Maksut	2016	A Test of Concept Study of At-Home, Self-Administered HIV Testing With Web-Based Peer Counseling Via Video Chat for Men Who Have Sex With Men	20	(AA/Black)MSM	North America
Intervention	Non-randomized studies	Manavi	2017	Observational study of factors associated with return of home sampling kits for sexually transmitted infections requested online in the UK	3099	General population	Europe
Acceptability	Quantitative descriptive studies	Maté	2020	Potential of HIV self-sampling to increase testing frequency among gay, bisexual, and other men who have sex with men, and the role of online result communication: Online cross-sectional study	5019	(GB)MSM	Europe
Intervention	Non-randomized studies	Mbopi-Kéou	2020	Launching HIV self-testing in a multicultural setting in Cameroon	322	General population	Africa
Acceptability	Quantitative descriptive studies	Miners	2019	Preferences for HIV testing services among men who have sex with men in the UK: A discrete choice experiment	620	MSM	Europe
Acceptability	Quantitative descriptive studies	Mokgatle	2017	High Acceptability of HIV Self-Testing among Technical Vocational Education and Training College Students in Gauteng and Northwest Province: What Are the Implications for the Scale Up in South Africa?	3662	College students (TVET)	Africa
Intervention	Randomized controlled trial	Mulubwa	2019	Community based distribution of oral HIV self-testing kits in Zambia: a cluster-randomised trial nested in four HPTN 071 (PopART) intervention communities	HIVST 13267 NONST 13706	General population	Africa
Intervention	Non-randomized studies	Nash	2021	Acceptability and usability of HIV self-tests in two European countries: findings from surveys of clients at non-governmental organisations in Lithuania and Italy	LT 138 IT 28	General population	Europe
Acceptability	Qualitative study	Nnko	2020	Female sex workers perspectives and concerns regarding HIV self-testing: an exploratory study in Tanzania	227	Female sexworkers (FSW)	Africa

Intervention	Non-randomized studies	Norelli	2021	Scaling Up CareKit: Lessons Learned from Expansion of a Centralized Home HIV and Sexually Transmitted Infection Testing Program	775	MSM	North America
Acceptability	Quantitative descriptive studies	O'Donnell	2019	Inequalities in HIV testing uptake and needs among men who have sex with men living in Ireland: findings from an internet survey	2770	MSM	Europe
Acceptability	Qualitative study	Pérez	2016	I Know that I Do Have HIV but Nobody Saw Me': Oral HIV Self-Testing in an Informal Settlement in South Africa	11	General population	Africa
Intervention	Non-randomized studies	Phanuphak	2020	Linkages to HIV confirmatory testing and antiretroviral therapy after online, supervised, HIV self-testing among Thai men who have sex with men and transgender women	MSM 465 TGW 99	MSM and TGW	Asia
Intervention	Non-randomized studies	Phanuphak	2018	Where do young men want to access STI screening? A stratified random probability sample survey of young men in Great Britain	571	MSM, TGW	Asia
Intervention	Qualitative study	Pierre	2020	A qualitative study on oral-fluid-based HIV self-testing experiences among men in Kigali, Rwanda	21	Men	Africa
Intervention	Non-randomized studies	Pintye	2019	Acceptability and outcomes of distributing HIV self-tests for male partner testing in Kenyan maternal and child health and family planning clinics	3620	Mothers (Women)	Africa
Intervention	Non-randomized studies	Platteau	2015	Symptom profile and technology use of people living with HIV who access services at a community-based organization in the Deep South	1071	MSM	Europe
Acceptability	Quantitative descriptive studies	Qin	2017	Benefits and Potential Harms of Human Immunodeficiency Virus Self-Testing Among Men Who Have Sex With Men in China: An Implementation Perspective	1189	MSM	Asia
Intervention	Non-randomized studies	Radebe	2020	HIV self-screening distribution preferences and experiences among men who have sex	127	MSM	Africa

				with men in Mpumalanga Province: Informing policy for South Africa			
Intervention	Qualitative study	Raffe	2020	HIV self-tests for men who have sex with men, accessed via a digital vending machine: a qualitative study of acceptability	23	MSM	Europe
Intervention	Non-randomized studies	Rahib	2022	Online self-sampling kits for human immunodeficiency virus and other sexually transmitted infections: Feasibility, positivity rates, and factors associated with infections in France	1948	MSM	Europe
Intervention	Non-randomized studies	Rahib	2021	Online self-sampling kits to screen multipartner MSM for HIV and other STIs: Participant characteristics and factors associated with kit use in the first 3 months of the MemoDepistages programme, France, 2018	7158	MSM	Europe
Intervention	Non-randomized studies	Ricca	2016	Factors Associated with Returning At-Home Specimen Collection Kits for HIV Testing among Internet-Using Men Who Have Sex with Men	896	MSM	North America
Acceptability	Quantitative descriptive studies	Robinson	2017	Preferences for Home-Based HIV Testing Among Heterosexuals at Increased Risk for HIV/AIDS: New Orleans, Louisiana, 2013	464	At-risk heterosexuals	North America
Intervention	Non-randomized studies	Rosenthal	2023	Geospatial Prioritization to Reach Hispanic or Latino and Other Priority Populations Through HIV Home Testing Services	2554	Hispanic/Latino MSM and TG/GNC people who have sex with men	North America
Acceptability	Qualitative study	Ryu	2023	Disruptions of sexually transmitted and blood borne infections testing services during the COVID-19 pandemic: accounts of service providers in Ontario, Canada	18	Service providers	North America
Acceptability	Quantitative descriptive studies	Saunders	2012	Where do young men want to access STI screening? A stratified random probability sample survey of young men in Great Britain	411	Young men	Europe

Intervention	Mixed methods studies	Seguin	2018	Self-testing is a feasible and acceptable option for identifying extragenital gonorrhea (GC) and Chlamydia (CT) infections in HIV-Infected People	QNT 119 QLT 21	Black Africans	Europe
Acceptability	Quantitative descriptive studies	Sharma	2014	Acceptability and intended usage preferences for six HIV testing options among internet-using men who have sex with men	973	MSM	North America
Intervention	Qualitative study	Sharma	2022	Perceptions and Experiences of Returning Self-collected Specimens for HIV, Bacterial STI and Potential PrEP Adherence Testing among Sexual Minority Men in the United States	25	(GB)MSM	North America
Intervention	Non-randomized studies	Sharma	2022	Acceptability and Feasibility of Self-Collecting Biological Specimens for HIV, Sexually Transmitted Infection, and Adherence Testing Among High-Risk Populations (Project Caboodle!): Protocol for an Exploratory Mixed-Methods Study	100	(GB)MSM	North America
Acceptability	Quantitative descriptive studies	Shrestha	2022	Mobile Health Technology Use and the Acceptability of an mHealth Platform for HIV Prevention Among Men Who Have Sex With Men in Malaysia: Cross-sectional Respondent-Driven Sampling Survey	376	MSM	Asia
Acceptability	Quantitative descriptive studies	Syred	2019	Choose to test: Self-selected testing for sexually transmitted infections within an online service	6253	General population	Europe
Acceptability	Qualitative study	Tobin	2018	Acceptability and feasibility of a Peer Mentor program to train young Black men who have sex with men to promote HIV and STI home-testing to their social network members	15	(YB)MSM	North America
Acceptability	Quantitative descriptive studies	Tonen-Wolyec	2019	Acceptability of HIV self-testing in African students: a cross-sectional survey in the Democratic Republic of Congo	1012	Students	Africa
Intervention	Non-randomized studies	Tonen-Wolyec	2019	Acceptability, feasibility, and individual preferences of blood-based HIV self-testing in	628	Adolescents	Africa

				a population-based sample of adolescents in Kisangani, Democratic Republic of the Congo			
Acceptability	Non-randomized studies	Turner	2018	Web-based data collection for older adults living with HIV in a clinical research setting: pilot observational study	5632	General population	Europe
Intervention	Non-randomized studies	Van Loo	2017	Self-collected genital swabs compared with cervicovaginal lavage for measuring HIV-1 and HSV-2 and the effect of acyclovir on viral shedding	217	MSM	Europe
Acceptability	Mixed methods studies	Vera	2019	Acceptability and feasibility of using digital vending machines to deliver HIV self-tests to men who have sex with men	QNT 232 QLT 10	MSM	Europe
Intervention	Non-randomized studies	Volk	2016	Acceptability and feasibility of HIV self-testing among men who have sex with men in Peru and Brazil	103	MSM	South America
Intervention	Non-randomized studies	Wong	2022	Regular Testing of HIV and Sexually Transmitted Infections With Self-Collected Samples From Multiple Anatomic Sites to Monitor Sexual Health in Men Who Have Sex With Men: Longitudinal Study	204	MSM	Asia
Intervention	Non-randomized studies	Wulandari	2020	Usability of a consumer health informatics tool following completion of a clinical trial: Focus group study	292	CSW (MWPS)	Asia
Intervention	Non-randomized studies	Xia	2018	Feasibility of an internet-based HIV testing service: anonymous urine collection from men who have sex with men	1977	MSM	Asia
Intervention	Randomized controlled trials	Xiao	2020	Sexual network distribution of HIV self-testing kits: Findings from the process evaluation of an intervention for men who have sex with men in China	177	MSM	Asia
Acceptability	Quantitative descriptive studies	Zhang	2022	The Impacts of the COVID-19 Pandemic on HIV Testing Utilization among Men Who Have Sex with Men in China: Cross-sectional Online Survey	595	(GB)MSM	Asia

Intervention	Non-randomized studies	Zhong	2017	Acceptability and feasibility of a social entrepreneurship testing model to promote HIV self-testing and linkage to care among men who have sex with men	380	MSM	Asia
