

Table S1: The Healthcare System Interaction (HSI) events in the model. Each row is for one HSI and shows the class of HSI it belong to, the service of which that HSI is a part (its “TREATMENT_ID”), the facility level(s) at which it operates and the ‘Appointment Type(s)’ and ‘Bed Type(s)’ it requires.

Module	TREATMENT_ID	HSI Event Class	Facility Level	Appointment Types	Bed-Type
