Supplementary Figure 1.

GEXs passing QC in SCAN-B from 7743 patients Included 2010 – 2018 n = 8350

Non-invasive cancer or unclear n = 892
GEX from lymph nodes or normal breast
n = 58
Multiple GEXs from patients
n = 508
No follow-up available for distant
metastasis (DM)
n = 1785
Bilateral breast cancer
n = 31

Single GEXs from unique breast cancer patients included in the analysis

n = 5326
