

Table 1. Participants characteristics and birth details.

Pseudonym	Age range	Parity	Type of birth	Onset of labour	Model of care
Participant 1	30-35	Primiparous	Instrumental birth	Induced	Combined care
Participant 2	30-35	Multiparous	Unplanned caesarean birth	Spontaneous	OU
Participant 3	40-45	Multiparous	Spontaneous vaginal birth	Spontaneous	OU
Participant 4	35-40	Multiparous	Spontaneous vaginal birth	Spontaneous	OU
Participant 5	35-40	Primiparous	Instrumental birth	Induced	OU
Participant 6	30-35	Primiparous	Water birth	Spontaneous	MLU
Participant 7	30-35	Multiparous	Water birth	Spontaneous	MLU
Participant 8	30-35	Primiparous	Spontaneous vaginal birth	Spontaneous	Combined care
Participant 9	25-30	Primiparous	Spontaneous vaginal birth	Spontaneous	MLU
Participant 10	30-35	Primiparous	Unplanned caesarean birth	Induced	OU
Participant 11	40-45	Primiparous	Spontaneous vaginal birth	Spontaneous	MLU
Participant 12	30-35	Primiparous	Spontaneous vaginal birth	Spontaneous	Combined care
Participant 13	25-30	Multiparous	Spontaneous vaginal birth	Induced	OU
Participant 14	20-25	Primiparous	Instrumental birth	Induced	OU
Participant 15	35-40	Primiparous	Instrumental birth	Induced	OU
Participant 16	30-35	Primiparous	Water birth	Spontaneous	Combined care
Participant 17	40-45	Primiparous	Spontaneous vaginal birth	Spontaneous	Combined care
Participant 18	30-35	Multiparous	Unplanned caesarean birth	Spontaneous	Combined care
Participant 19	30-35	Primiparous	Spontaneous vaginal birth	Spontaneous	MLU

a- MLU: Midwifery-led unit, aligned with a biopsychosocial model of care.

b- OU: Obstetric unit, aligned with a biomedical model of care.

c- Combined care: transfer from MLU to OU during or after labour.

Table 2. Focus group interview guide.

1. General experience of childbirth
Icebreaker: In one word, how would you describe your childbirth experience?
Can you share your childbirth experience and what it meant for you, your baby and your family?
2. Negative aspects of childbirth
What would you change from your childbirth experience?
3. Positive aspects of childbirths
What do you believe is necessary for a childbirth experience to be positive?
When prioritising, of all we have discussed, what do you consider was most important during childbirth?
4. Additional aspects
Would you add anything else that has not been mentioned by you or any member of the group?

Table 3. Themes and sub-themes identified.

Themes	Subthemes
1. Shaping birth expectations	1.1 Cultural and social factors
	1.2 Previous obstetric experiences
	1.3 Knowledge, interaction and healthcare accessibility
2. The childbirth essentials	2.1 One to one care
	2.2 Pain relief strategies
	2.3 Privacy and dignity
	2.4 Respectful care
3. Navigating the “positives” and the “negatives”	3.1 Meeting birth expectations
	3.2 Meeting elements of “value” in care
	3.3 Midwifery role on “childbirth essentials” and “elements of value”
