

Supplementary Material S2: Survey Questions

Survey 1: Patient Recruitment Survey

1. Full Name	<ul style="list-style-type: none"> • [Open-ended response]
2. Contact Number	<ul style="list-style-type: none"> • [Open-ended response]
3. Email Address	<ul style="list-style-type: none"> • [Open-ended response]
4. How old are you? (in years)	<ul style="list-style-type: none"> • [Open-ended response]
5. In your opinion, how healthy are you right now?	<ul style="list-style-type: none"> • Healthy • Somewhat healthy • Unhealthy • Very Healthy
<p>6. How interested are you in learning about genetic risk for the following conditions? (Optional)</p> <ul style="list-style-type: none"> a. Osteoarthritis b. Rheumatoid arthritis c. Asthma d. Celiac disease e. Ulcerative colitis f. Breast cancer g. Colorectal cancer h. Leukemia i. Lung cancer j. Prostate cancer k. Skin cancer l. Heart disease m. Blood coagulation/embolic disease n. Chronic Kidney Disease o. High cholesterol p. Diabetes q. Glaucoma r. Bipolar disorder s. Alzheimer's disease t. Lou Gehrig's disease u. Multiple sclerosis v. Parkinson's disease w. Obesity 	<ul style="list-style-type: none"> • Not interested at all • Somewhat uninterested • Interested • Very interested
7. How did you first hear about genetic testing for drug response?	<ul style="list-style-type: none"> • Your doctor • Friends and family • Social media • News • Other companies

	<ul style="list-style-type: none"> • I have never heard of genetic testing for drug response • Other (please specify): [Open-ended response]
8. What is the reason you are seeing the doctor today?	<ul style="list-style-type: none"> • Routine check-up • To consult on a health problem • Follow-up for a chronic illness or post-operation • Accompanying a patient • Other (please specify): [Open-ended response]
9. To what extent did the following factors play a part in your decision to be tested? <ul style="list-style-type: none"> a. Helpfulness in optimizing my treatment b. Recommendation from my healthcare provider c. Recommendation from my family or friends d. Self-curiosity e. Out-of-pocket cost f. Personal experience or stories of side effects caused by medication g. Safety of personal medical and genetic data 	<ul style="list-style-type: none"> • Not at all • Very little • Somewhat • To a great extent
10. Are you currently taking any chronic medication?	<ul style="list-style-type: none"> • Yes • No
11. Do you expect to take any daily/chronic medication in the future?	<ul style="list-style-type: none"> • Yes • No
12. Have you taken any of the following medication before?	<ul style="list-style-type: none"> • Allopurinol • Amitriptyline • Aripiprazole • Atomoxetine • Celecoxib • Citalopram • Clomipramine • Clopidogrel • Codeine • Doxepin • Escitalopram • Flecainide • Fluvoxamine • Haloperidol

	<ul style="list-style-type: none"> • Imipramine • Lansoprazole • Metoprolol • Nortriptyline • Omeprazole • Ondansetron • Paroxetine • Propafenone • Sertraline • Simvastatin • Tamoxifen • Tramadol • Venlafaxine • Voriconazole • Zuclopenthixol
<p>13. Have you ever been diagnosed or is currently diagnosed with the following conditions?</p>	<ul style="list-style-type: none"> • Type 2 Diabetes Mellitus • Hypertension • Gout • Anxiety • Stroke • Rheumatoid arthritis • Osteoarthritis • Hyperlipidemia (high cholesterol) • Ischaemic heart disease (heart attack) • Major depressive disorder (depression)
<p>14. How many times have you been hospitalized (with overnight stay) within the last year?</p>	<ul style="list-style-type: none"> • [Open-ended response]
<p>15. Please list the reason(s) for your hospitalization below: (Check all that apply)</p>	<ul style="list-style-type: none"> • Accident, poisoning and violence • Cancer • Acute respiratory infection • Skin infection • Gastroenterological infection • Heart disease • Cerebrovascular diseases (including stroke) • Pregnancy complications affecting foetus and newborn

	<ul style="list-style-type: none"> • Other (please specify): [Open-ended response]
16. How many times have you visited a hospital within the last year (excluding health screening and hospitalization)?	<ul style="list-style-type: none"> • [Open-ended response]
17. Please list the reason(s) for your hospital visit below: (Check all that apply)	<ul style="list-style-type: none"> • Cancer • Ear, Nose & Throat Conditions (e.g., General ENT, Allergy Testing) • Eye Conditions (e.g., Cataract, Refractive Surgery) • Heart Conditions • Neurology Conditions (e.g., Epilepsy) • Pain Management (e.g., Arthritis, Spinal Pain) • Skin Conditions (e.g., Skin Rash) • Urology (e.g., Kidney Stones, Urinary Tract Problems) • Other (please specify): [Open-ended response]
18. Have your doctor told you that you experience adverse drug reaction before in your lifetime?	<ul style="list-style-type: none"> • Yes • No • I'm not sure • Other (please specify): [Open-ended response]
19. Have you ever felt that your medication did not work as expected?	<ul style="list-style-type: none"> • Yes • No • I'm not sure
20. If yes, please list the name of medication that might have caused this:	<ul style="list-style-type: none"> • [Open-ended response]
21. Have you suspected your direct family member or others of experiencing adverse drug reaction before in their lifetime? a. Father b. Mother c. Sibling d. Paternal Grandfather e. Paternal Grandmother f. Maternal Grandfather g. Maternal Grandmother h. Other family members	<ul style="list-style-type: none"> • Yes • No • Maybe

i. Not a family member	
22. If you have answered "Yes" to the previous question, please list down what are the medications that caused the adverse drug reaction.	<ul style="list-style-type: none"><li data-bbox="995 241 1378 277">• [Open-ended response]

Survey 2: Patient 3 Months Post-test Follow-up Survey

<p>Section 1: My Testing Experience</p> <p>1. Please help us to understand your testing experience by selecting which of the following BEST describes it</p> <ul style="list-style-type: none"> a. The ordering process (ordering, consent taking, cheek swabbing) of my pharmacogenomics testing kit was easy and straightforward. b. I find pharmacogenomics testing to be helpful to me in my healthcare decision-making at this time. c. I believe pharmacogenomics testing will be helpful to me in my healthcare decision-making in the future. d. I am satisfied with my decision to take the pharmacogenomics test. e. Overall, I am satisfied with my pharmacogenomics testing experience. 	<ul style="list-style-type: none"> • Strongly Disagree • Somewhat Disagree • Somewhat Agree • Strongly Agree
<p>2. How did you learn about your pharmacogenomic test results? (Check all that apply)</p>	<ul style="list-style-type: none"> • Nala Personal Health Manager Mobile app • In an Email or Message • In-person at a follow-up appointment scheduled with my healthcare provider specifically to view results • In-person at an appointment scheduled for another reason • Can't recall • Other (please specify): [Open-ended response]
<p>3. What would be your preferred method of receiving your pharmacogenomic test results?</p>	<ul style="list-style-type: none"> • Nala Personal Health Manager Mobile app • In an Email or Message • In-person at a follow-up appointment scheduled with my healthcare provider specifically to view results • In-person at an appointment scheduled for another reason

	<ul style="list-style-type: none"> • Other (please specify): [Open-ended response]
4. I have a clear understanding of my test results from pharmacogenomics testing.	<ul style="list-style-type: none"> • Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
5. I discussed my pharmacogenomics test results with my healthcare provider.	<ul style="list-style-type: none"> • Yes • No (if No, please skip the following 2 questions)
6. My healthcare provider seemed confident in explaining the meaning of the pharmacogenomics test results to me.	<ul style="list-style-type: none"> • Strongly disagree • Disagree • Neither agree nor disagree • Somewhat agree • Strongly agree
7. After discussing the results with your healthcare provider, did you look up additional information?	<ul style="list-style-type: none"> • Yes • No
8. I would like additional follow-up from my healthcare provider to discuss my pharmacogenomics test results.	<ul style="list-style-type: none"> • Yes • No
9. After learning my pharmacogenomics test results, I am more likely to take medications prescribed by my healthcare provider.	<ul style="list-style-type: none"> • Strongly disagree • Disagree • Neither agree nor disagree • Somewhat agree • Strongly agree
10. After learning my pharmacogenomics test results, I feel more confident that medication(s) prescribed to me will not cause side effects and/or will help my condition, compared to past prescriptions I've received without testing.	<ul style="list-style-type: none"> • Strongly disagree • Disagree • Neutral • Agree • Strongly agree • Not Applicable (I currently do not take medications)
11. After learning my pharmacogenomic test results, I feel more validated about my medication experiences.	<ul style="list-style-type: none"> • Strongly disagree • Disagree • Neutral • Agree • Strongly agree

	<ul style="list-style-type: none"> • Not Applicable (I currently do not take medications)
12. I believe that the most valuable outcome for me from pharmacogenomics testing is:	<ul style="list-style-type: none"> • Decreased side effects • Increased medication effectiveness • Decreased cost of medications • Decreased cost of related healthcare services • Decreased trial and error in prescribing my medications • More willing to try new medication • More confidence in my prescribing healthcare provider
<p>Section 2: Feelings upon receiving Test Results</p> <p>13. Since receiving my test results, I have felt ____ about them:</p> <ol style="list-style-type: none"> a. Disappointed b. Confused c. Regret d. Relieved e. Happy 	<ul style="list-style-type: none"> • Never • Rarely • Occasionally • Often • All the time
14. I discussed my pharmacogenomics test results with a family member.	<ul style="list-style-type: none"> • Yes • No (if no, please skip the following question) • I plan to do so
15. After learning about my pharmacogenomics testing experience, one or more of my family members decided to pursue pharmacogenomics testing.	<ul style="list-style-type: none"> • Yes • No • Unsure

Survey 3: Principal Investigator End of Recruitment Survey

<p>Section 1: Patient on-boarding and enrolment process</p> <p>1. How difficult was it to convince the participants to take our PGx test?</p>	<ul style="list-style-type: none"> • 1 (Easy) • 2 • 3 • 4 (Difficult)
<p>2. On average, how long did it take to convince the participant to participate in the PGx testing?</p>	<ul style="list-style-type: none"> • [Open-ended response]
<p>3. What were the concerns the participants had when you offered them our PGx test?</p> <ol style="list-style-type: none"> a. Patient does not understand what PGx testing is for even after explaining b. Patient does not see the benefit of PGx testing c. Patient is afraid that the PGx test is expensive OR it will cause his/her medical services to be more expensive in the future d. Patient is afraid that the results will affect their lifestyle in the future e. Patient is afraid that the results will affect their employability in the future f. Patient is afraid that the results will affect their medical insurability in the future 	<ul style="list-style-type: none"> • Strongly Disagree • Disagree • Agree • Strongly Agree
<p>4. How often do the participants ask these following questions?</p> <ol style="list-style-type: none"> a. What is PGx test b. Cost of the PGx test c. When and how will they receive the test d. The reason they need the test e. How will the test impact them and their family members 	<ul style="list-style-type: none"> • Never asked • Seldom asked • Sometimes asked • Often asked • Always asked
<p>5. Please list other questions the patients asked about.</p>	<ul style="list-style-type: none"> • [Open-ended response]
<p>6. What were the participants' enrolled primary (initial) intention of seeing you?</p>	<p>Please rank the responses below from 1 (most common) to 5 (least common)</p> <ul style="list-style-type: none"> • To consult you about their acute conditions (e.g. fever, gastritis, headache, pain etc) • and/or to obtain Medical Certificate

	<ul style="list-style-type: none"> • To consult you about their chronic conditions • To consult you on their routine scheduled health check-up • To accompany their family/friends on their medical consultation • To follow-up on their recent hospitalization or medical procedure
7. What are the other problems or trends observed during recruitment process? (Optional)	<ul style="list-style-type: none"> • [Open-ended response]
8. Please let us know how we can improve the workflow in the future. (Optional)	<ul style="list-style-type: none"> • [Open-ended response]
9. Please rank these values in terms of importance for the participant:	<p>Please rank the responses below from 1 (most important) to 7 (least important)</p> <ul style="list-style-type: none"> • The reason for the test • The cost of the test • The implication of the test towards their lifestyle • The implication of the test towards their employability • The implication of the test towards their medical insurability • How trustworthy the genetic testing company is • How secure their genetic data will be stored
<p>Section 2: Review of the web interface (Nala Clinical Decision Support)</p> <p>10. The platform I used for receiving results is</p>	<ul style="list-style-type: none"> • EHR-integrated module • Web application provided by Nalagenetics (Nala Clinical Decision Support) • Both
11. Please indicate how frequently you use each of the pages listed below on your Nala CDS web application.	<ul style="list-style-type: none"> • Never • Rarely • Sometimes

<ul style="list-style-type: none"> a. Dashboard b. Orders c. Reports d. Patients e. Bulk Order f. Profile Settings 	<ul style="list-style-type: none"> • Often • Always
<p>12. On a scale of 1- 5, how would you rate your experience of using the Nala CDS Platform?</p>	<ul style="list-style-type: none"> • 1 (Poor) • 2 • 3 • 4 • 5 (Excellent)
<p>13. On a scale of 1-10, how likely are you to recommend Nala CDS Platform (either as EHR-integrated module, standalone web app, or both) to a friend or colleague in a similar profession?</p>	<ul style="list-style-type: none"> • 1 (Very unlikely) • 2 • 3 • 4 • 5 • 6 • 7 • 8 • 9 • 10 (Very likely)
<p>14. What improvements would you suggest for Nala CDS Platform?</p>	<ul style="list-style-type: none"> • [Open-ended response]
<p>15. In the future, would you be interested to participate in our user research on Nala CDS?</p>	<ul style="list-style-type: none"> • Yes • No
<p>Section 3: Feedback on Nalagenetics Operational Staff 16. The operational staff is:</p> <ul style="list-style-type: none"> a. Helpful -takes the initiative to check if there is anything wrong b. Resourceful -knows how to solve complicated and unexpected problems c. Responsive -replies in a timely manner d. Articulate -able to communicate effectively e. Friendly -maintains good rapport with you and clinic staff 	<ul style="list-style-type: none"> • Strongly Disagree • Disagree • Agree • Strongly Agree
<p>17. What can be improved from the operational staff? Please fill in if you have answered "Disagree or Strongly Disagree" in any of the above questions.</p>	<ul style="list-style-type: none"> • [Open-ended response]
<p>18. Please rate the following</p>	<ul style="list-style-type: none"> • Strongly Disagree • Disagree

<p>a. The operational staff helped in convincing the participants to take the test</p> <p>b. The operational staff helped ensure the workflow is smooth</p>	<ul style="list-style-type: none"> • Agree • Strongly Agree
<p>Section 4: Your perception on PGx testing and future PGx</p> <p>19. How important will these factors be for you when making a decision for patients to take a PGx test?</p>	<p>Please rank these factors from 1 (most important) to 8 (least important)</p> <ul style="list-style-type: none"> • Patient's family history • Patient's current medication • Familiarity with the testing company • Scientific basis of the PGx test • Patient's comorbidities • Patient's demographics (gender, age, race) • Patient's financial capability • Patient's history of therapy failure or adverse drug reaction
<p>20. I plan to use PGx test in the future to:</p> <p>a. Guide future drug selection when appropriate</p> <p>b. Guide future dosing when appropriate</p> <p>c. Guide future drug monitoring when appropriate</p> <p>d. Call for pharmacy consultation</p> <p>e. I do not plan to use PGx test anymore</p>	<ul style="list-style-type: none"> • Strongly Disagree • Disagree • Agree • Strongly Agree
<p>21. I expect to order or recommend PGx test in the next 6 months</p>	<ul style="list-style-type: none"> • 1 (Very unlikely) • 2 • 3 • 4 (Very likely)
<p>22. In order to increase the likelihood of myself ordering PGx test in the future for the management of my patients' drug therapy, I would need: *</p>	<p>Please rank the following statements with 1 being most useful and 9 being least useful</p> <ul style="list-style-type: none"> • Better knowledge of genetics • Better knowledge of pharmacology • Insurance coverage for patients

	<ul style="list-style-type: none"> • More traction within Singapore medical community • Support from my working institution • Available live assistance from an expert in genetics • Better knowledge on medicinal chemistry (pharmacokinetics and pharmacodynamics) • Stronger evidence that pharmacogenetics improves clinical outcomes • Clearer legal regulations regarding PGx testing
<p>23. What do you think is missing from the current recruitment and on-boarding process?</p>	<ul style="list-style-type: none"> • [Open-ended response]
<p>24. If you have more comments, please feel free to write them down below.</p>	<ul style="list-style-type: none"> • [Open-ended response]
