Instrument: Inclusion (inclusion) ^ Collapse																																													
1	record_id	Record ID	text																																										
2	episode_extra	<p>Section Header: <i>Hospital based surveillance of Influenza and COVID-19 cases in Switzerland Each new record is a distinct COVID-19 OR Influenza Episode related to a patient. In case a patient undergoes one Influenza episode and one COVID-19 episode, please create two separate records: one for influenza, and one for COVID-19. A new episode is defined as a new hospitalisation separated by at minimum 30 days from the previous hospitalisation. In case a specific patient undergoes more than one episode, please create a new record to report each additional episode. Whenever possible, make sure that you fill the Inclusion, Demography, Case Declaration, and Admission forms within 72h. The other forms can be filled later but ASAP.</i></p> <p>Is this another episode of the same virus (COVID-19 or Influenza) from a same patient ?</p>	<p>radio, Required</p> <table border="1"> <tr> <td>0</td> <td>No (this is the patient's first episode)</td> </tr> <tr> <td>1</td> <td>Yes (the first episode record has been already reported)</td> </tr> <tr> <td>-1</td> <td>Still to be confirmed</td> </tr> </table> <p>Custom alignment: LV</p>	0	No (this is the patient's first episode)	1	Yes (the first episode record has been already reported)	-1	Still to be confirmed
