## Instructions

---

**First, read the question and the response options.** Then please tick the correct response. It is important that you give your own opinion and complete the questions without consulting others.

**Only 1 response is possible per question.** Complete the entire questionnaire and please don't skip any questions! If you are unsure of how to answer a question, you may give an estimate.

**Did you make a mistake?** If you made a mistake it is not a problem. Just black out the wrong response entirely, and tick the correct response. Like so:

**Please answer all questions as if you were wearing your glasses or contact lenses (if any).**

The questions in this questionnaire relate to **your situation in the past month.**
