

Appendix 1 – Questions included in the survey sent to trusts who said they practised environmental and social impact assessment (ESIA)

Questions about content and format of ESIA	Questions about the process of using the ESIA
Was it based on a particular model or adapted from other tools?	Is it mandatory to complete?
Does it involve a screening tool?	Who reviews the completed ESIA?
Is it separate to the main business case proposal form?	Does it require formal approval?
Are the questions categorised into environmental and/or social themes?	Is it followed up any time after business case approval?
In what format are the answers? (Free text, scores/scales, or quantifiable data)	Has the introduction of the ESIA changed business planning practice, and if so has this been measured?
Does it ask for mitigation plans?	What were the barriers and challenges when embedding this into practice, if any?
