

## 1. Knowledge of nCoV transmission and prevention (7 questions)

1.1	Are you aware of the novel coronavirus situation?	1 = Yes; 0 = No (if no, don't have to proceed with the survey)
1.2	What are the symptoms of the novel coronavirus: <ol style="list-style-type: none"> <li>1. Fever</li> <li>2. Cough</li> <li>3. Breathing difficulty or shortness of breath</li> <li>4. Nausea/Vomiting</li> <li>5. Diarrhoea</li> <li>6. Muscle ache</li> <li>7. Chills/Shivering spells</li> <li>8. Skin rash</li> <li>9. Sore throat</li> <li>10. Runny nose</li> </ol>	Check all that apply
1.3	Do you think the novel coronavirus can be spread by: <ol style="list-style-type: none"> <li>1. Coughing</li> <li>2. Sneezing</li> <li>3. Close personal contact (e.g. handshake, hugs)</li> <li>4. Touching contaminated surfaces (eg: door handles)</li> <li>5. Contact with human faeces</li> <li>6. Contact with animals/animal faeces</li> <li>7. Touching/eating raw meat</li> <li>8. Touching/eating contaminated food</li> <li>9. Mosquito bites</li> </ol>	Check all that apply
1.4	How long do you think it takes for a person to become sick if he/she is infected with the novel coronavirus?	____ days
1.5	Where do you think people are most likely to contract the novel coronavirus? <ol style="list-style-type: none"> <li>1. Home</li> <li>2. GP</li> <li>3. Polyclinic</li> <li>4. Hospitals</li> <li>5. Public transport</li> <li>6. Markets</li> <li>7. Shopping malls</li> <li>8. Countries with coronavirus outbreaks</li> <li>9. Airplanes</li> <li>10. Workplaces</li> <li>11. Schools/childcare centres</li> <li>12. Playgrounds</li> <li>13. Hawker centres/coffee shops</li> <li>14. Gym</li> </ol>	Check all that apply
1.6	What are some ways you can protect yourself against the novel coronavirus? <ol style="list-style-type: none"> <li>1. Good personal hygiene</li> </ol>	Check all that apply

	<ol style="list-style-type: none"> <li>2. Wash hands frequently with soap</li> <li>3. Use hand sanitiser/alcohol rub</li> <li>4. Drink warm water</li> <li>5. Wear a surgical mask</li> <li>6. Wear an N95 mask</li> <li>7. Take vitamin C</li> <li>8. Avoid mosquito bites</li> <li>9. Avoid contact with live animals including poultry and birds</li> <li>10. Avoid eating raw or undercooked meat</li> <li>11. Avoid crowded places</li> </ol>	
1.7	<p>What control measures has the government put in place so far?</p> <ol style="list-style-type: none"> <li>1. Restricting travel into Singapore from China</li> <li>2. Restricting travel to China</li> <li>3. Screening of patients at hospital emergency departments</li> <li>4. Temperature and health screening at land, air and sea entry points to Singapore</li> <li>5. Suspected cases warded in hospital isolation rooms</li> </ol>	Check all that apply

## 2. Sources of information (7 questions)

2.1	Have you actively searched for information on the novel coronavirus?	1= Yes, 0=No (if no, go to 2.4)
2.2	<p>What are the main sources of information you used for information about the novel coronavirus?</p> <ol style="list-style-type: none"> <li>1. Newspaper</li> <li>2. Television (e.g. CNA, Channel 5/8/U, Vasantham, Suria)</li> <li>3. Radio</li> <li>4. Internet search (e.g. Google, Yahoo, MSN, Bing)</li> <li>5. Social media (e.g. Facebook, Twitter, Instagram)</li> <li>6. Social networking sites (e.g. Whatsapp/Telegram/WeChat/LINE/KakaoTalk)</li> <li>7. Friends and family members</li> <li>8. Workplace</li> <li>9. Doctors</li> <li>10. Other health professionals</li> <li>11. Official government websites (e.g. MOH, HPB, MOM, SGSecure etc.)</li> </ol>	Check all that apply
2.3	<p>For the following sources of information about the novel coronavirus, please rank them according to how trustworthy they are:</p> <ol style="list-style-type: none"> <li>1. Newspaper</li> <li>2. Television (e.g. CNA, Channel 5/8/U, Vasantham, Suria)</li> <li>3. Radio</li> <li>4. Internet search (e.g. Google, Yahoo, MSN, Bing)</li> <li>5. Social media (e.g. Facebook, Twitter, Instagram)</li> </ol>	Rank

	<ol style="list-style-type: none"> <li>6. Social networking sites (e.g. Whatsapp/Telegram/WeChat/LINE/KakaoTalk)</li> <li>7. Friends and family members</li> <li>8. Workplace</li> <li>9. Doctors</li> <li>10. Other health professionals</li> <li>11. Official government websites (e.g. MOH, HPB, MOM, SGSecure etc.)</li> </ol>	
2.4	<p>Have you received any unsolicited information about the novel coronavirus from these sources that you did not deliberately search for? (these include news stories, health advice, advertisements, personal stories)</p> <ol style="list-style-type: none"> <li>1. Facebook</li> <li>2. Whatsapp</li> <li>3. Twitter</li> <li>4. WeChat</li> <li>5. Weibo</li> <li>6. Telegram</li> <li>7. Instagram</li> <li>8. Kakao Talk</li> <li>9. LINE</li> </ol>	<p>1 = Yes; 0 = No (If no, go to 3.1)</p>
2.5	<p>Did you receive any of the following types of information about the novel coronavirus?</p> <ol style="list-style-type: none"> <li>1. News stories</li> <li>2. Health advice</li> <li>3. Personal stories</li> <li>4. Advertisements for health remedies/products/treatments</li> </ol>	<p>Check all that apply</p> <p>1 = Yes; 0 = No</p>
2.6	<p>Did you share these with others?</p>	<p>1 = Yes; 0 = No (If no, go to 3.1)</p>
2.7	<p>Why did you share these with others?</p> <ol style="list-style-type: none"> <li>1. I thought the information was important</li> <li>2. I thought the information came from a reliable source</li> <li>3. I thought the information came from an influential source</li> <li>4. I thought the information was accurate</li> <li>5. I thought the information was fun/entertaining</li> <li>6. I thought the information was not trustworthy</li> <li>7. I thought the information was urgent</li> <li>8. I thought others would find the information useful</li> </ol>	<p>Check all that apply</p>

### 3. Self-efficacy and information needs (14 questions)

	Do you feel that you have enough information about:	1= Yes; 0 = No
3.1	How to protect yourself from the novel coronavirus	
3.2	How to protect family members from the novel coronavirus	
3.3	What to do if you think you are infected	
3.4	How to protect others around you if you are infected	
3.5	What control measures the health authorities are taking to control the spread of the virus	
3.6	Why the health authorities are taking these specific control measures	
3.7	How the novel coronavirus can be transmitted	
3.8	What symptoms you might have if you are infected	
3.9	The risk of infection to you and your family	
3.10	Is there additional information about the new coronavirus you feel you need? If so, please specify	Free text
3.11	How would you like to receive this information? 1. Newspapers 2. Television 3. Radio 4. Internet 5. Social networking websites 6. Others (please specify: _____)	Check all that apply
3.12	From whom would you like to receive this information? 1. General Practitioner 2. Local health institute (eg. Polyclinics) 3. National health bodies (eg. MOH, HPB) 4. Employer 5. Family and friends 6. Others (please specify: _____)	Check all that apply
3.13	How confident are you that you can protect yourself against the novel coronavirus?	1=not confident at all, 2=somewhat confident, 3=quite confident 4=very confident
3.14	If you became infected with the novel coronavirus, how confident are you that you could avoid spreading the	1=not confident at all, 2=somewhat confident,

	virus to others?	3=quite confident 4=very confident
--	------------------	---------------------------------------

#### 4. Anxiety (22 questions)

4.1	If you were to develop symptoms of coronavirus tomorrow, how worried would you be?	1=not at all worried, 2=much less worried than normal, 3=worried less than normal, 4=about the same, 5=worried more than normal, 6=worried much more than normal, 7=extremely worried
4.2	In the past one week, have you worried about catching coronavirus?	1=no, never think about it, 2=think about it but it didn't worry me, 3=worried me a bit, 4=worried me a lot, 5=worried about it all the time
4.3	Please rate the current level of your worry towards coronavirus:	Score ranges from <u>1</u> - <u>10</u> (1 =very mild, 10 =very severe)
4.4	How likely do you think it is that you will contract coronavirus over the next 1 month?	1=Never, 2=very unlikely, 3=unlikely, 4=even, 5=likely, 6=very likely, 7=certain
4.5	Given what you know about coronavirus, does it make you more or less willing to travel to the following countries <u>as of this moment</u> ? - China - Australia - Thailand - Malaysia	1=much more willing, 2=more willing, 3=neither more or less willing, 4=less willing, 5=much less willing
4.6	Given what you know about coronavirus, does it make you more or less willing to travel outside of Singapore <u>as of this moment</u> ?	1=much more willing, 2=more willing, 3=neither more or less willing, 4=less willing, 5=much less willing

4.7	Given what you know about coronavirus, does it make you more or less willing to travel outside of Singapore <u>in the next month</u> ?	1=much more willing, 2=more willing, 3=neither more or less willing, 4=less willing, 5=much less willing
	Please indicate the degree to which you agree with the following statements	1= completely disagree; 2 = disagree; 3 = don't disagree or agree; 4 = agree; 5 = completely agree
4.8	There is nothing we can do about the novel coronavirus	
4.9	The threat is exaggerated by the media	
4.10	The threat is exaggerated by the government	
4.11	The threat is exaggerated by the health authorities	
4.12	The measures being taken by the health authorities are not enough to control the spread of coronavirus	
4.13	I will stock up and stay indoors for as long as necessary	
4.14	Singapore is well-prepared to deal with the novel coronavirus	
4.15	Family and friends around me are anxious about the novel coronavirus	
4.16	I worry that my family and friends could get infected with the novel coronavirus	
4.17	I would say I'm a superstitious person	
4.18	If someone is meant to get a serious disease, they will get it no matter what they do	
4.19	My health is determined by fate	
4.20	My health is determined by luck	
4.21	If someone is meant to get a disease it doesn't matter what kind of food they eat, they will get the disease anyway	
4.22	If someone is meant to have a serious disease they will get that disease	

## 5. Confidence in authority (12 questions)

	Please indicate the degree to which you agree with the following statements	0 = Strongly disagree; 1 = Disagree; 2 = Neither agree/disagree; 3 = Agree; 4 = Strongly agree
5.1	The government has been open with information regarding the new coronavirus	
5.2	The government has been honest with information regarding the new coronavirus	
5.3	I trust the information that the government has provided about the new coronavirus	
5.4	I am confident in the government's ability to contain the new coronavirus	
5.5	I am confident in the public health measures established by the government	
5.6	The government has the proper infrastructure/services/systems in place to contain a potential outbreak	
5.7	I trust the information that the government has provided about how to protect myself from the new coronavirus	
5.8	I am confident in the government's ability to care for the people who have been affected by the new coronavirus	
5.9	The government has the proper infrastructure/services/systems in place to provide appropriate care for people who have been affected by the new coronavirus	
5.10	The government is committed to protecting me from the new coronavirus	
5.11	The government's actions in response to the new coronavirus are in my best interests	
5.12	The government's actions in response to the new coronavirus are in the best interests of the Singapore population	

#### 6. Acceptance of control measures (5 questions)

	Please indicate the degree to which you agree with the following statements:	1= completely disagree; 2 = disagree; 3 = don't disagree or agree; 4 = agree; 5 = completely agree
6.1	Public Health authorities should have the power to order people into quarantine during outbreaks	

6.2	If someone came into contact with a person who had symptoms of coronavirus infection, they should be quarantined	
6.3	If someone is given a quarantine order by Public Health authorities, they should follow it no matter what else is going on in their life at work or home	
6.4	If I go into quarantine, my family/friends/community will be protected from becoming sick	
6.5	<p>Imagine that Singapore's health authorities advised these measures. For each measure, please indicate <u>how likely you are to adhere to each measure</u>:</p> <ol style="list-style-type: none"> <li>1. Keeping away from crowded places</li> <li>2. Washing hands more regularly with soap and water</li> <li>3. Cleaning or disinfecting things you might touch</li> <li>4. Avoiding public transport</li> <li>5. Avoiding travel to affected countries</li> <li>6. Avoiding people who have flu-like symptoms</li> <li>7. Wearing face masks out in public</li> <li>8. Wearing face masks at home</li> <li>9. Seeking medical advice with the onset of symptoms</li> <li>10. Taking preventive medication</li> <li>11. Staying home from school or work</li> </ol>	1 = certainly not; 2 = probably not; 3 = neutral; 4 = probably; 5 = certainly

## 7. Behavioural responses (21 questions)

	Over the past week, have you done any of the following to reduce the risk of infection from the new virus?	1 = Yes; 0 = No; 2 = N/A
7.1	Deliberately cancelled or postponed a social event, such as meeting friends, eating out etc.	
7.2	Deliberately cancelled or postponed work-related travel plans	
7.3	Deliberately cancelled or postponed personal travel plans	

7.4	Reduced the amount you use public transport (buses & MRT; should we include taxi/grabs?)	
7.5	Reduced the amount of time you spend outside your home	
7.6	Took time off work because I was feeling unwell	
7.7	Took time off work because I did not want to get infected by someone else	
7.8	Kept one or more of my children out of school to avoid contact with other children	
7.9	Kept one or more of my children out of school because s/he exhibited flu-like symptoms	
7.10	Kept away from crowded places (shopping malls, supermarkets etc.)	
7.11	Kept away from healthcare institutions (hospitals, polyclinics etc.)	
7.12	Kept away from people who exhibit flu-like symptoms	
7.13	Used face masks more frequently	
7.14	Increased the amount I clean or disinfect things that I might touch (e.g. door knobs)	
7.15	Washed my hands with soap and water more often than usual	
7.16	Stocked up on precautionary/treatment measures (e.g. medications, face masks, hand soap, hand sanitizer)	

7.17	Stocked up on groceries	
7.18	Got the influenza vaccine (flu shot, flu jab)	
7.19	Drank more warm water	
7.20	Took more vitamin C	
7.21	Took antibiotics	

Thank you so much for your time.
