1	10.1016/S0140-6736(20)30183-5	82	Clinical features of patients infected with 2019 novel coronavirus in Wuhan, China	Huang C	China	Lancet	43.377	700	24/1/2020	Cohort study	D.C.D	C	Report the epidemiological, clinical, laboratory, and radiological characteristics and treatment and clinical outcomes of patients affected by COVID-19.
2	10.1016/S0140-6736(20)30154-9	71	A familial cluster of pneumonia associated with the 2019 novel coronavirus indicating person-to-person transmission: a study of a family cluster.	Chan J	China	Lancet	43.377	700	24/1/2020	Case Report/Case Study	D.C.D	E, V, C, D	Investigate the person-to-person or nosocomial transmission of SARS-CoV-2.
3	10.1016/S0140-6736(20)30211-7	27	Epidemiological and clinical characteristics of 99 cases of 2019 novel coronavirus pneumonia in Wuhan, China: a descriptive study	Chen N	China	Lancet	43.377	700	30/1/2020	Cross-sectional study/Descriptive	D.C.D	C, D	Improve the knowledge about the epidemiology and clinical features of pneumonia caused by SARS-CoV-2
4	10.1016/S0140-6736(20)30185-9	17	A novel coronavirus outbreak of global health concern	Wang C	China	Lancet	43.377	700	24/1/2020	Editorial/Comment/Letter/News/Expert opinion/Essay	R.D.	E	Describe the stages of the outbreak and describe clinical features of affected subjects.
5	10.1002/jmv.25678	16	Outbreak of pneumonia of unknown etiology in Wuhan, the mystery and the miracle	Lu H	China	Journal of Medical Virology	2.066	105	16/1/2020	Editorial/Comment/Letter/News/Expert opinion/Essay	O.D.	E	Commentary about the outbreak and the similarities with other coronavirus.
6	10.1016/j.ijid.2020.01.009	12	The continuing 2019-nCoV epidemic threat of novel coronaviruses to global health - The latest 2019 novel coronavirus outbreak in Wuhan, China.	Hui DS	China	International journal of infectious diseases	3.420	73	14/1/2020	Editorial/Comment/Letter/News/Expert opinion/Essay	O.D.	GD, E, TR, P	Describe the SARS-CoV-2 outbreak in Wuhan, China
7	10.1001/JAMA.2020.0757	7	Coronavirus Infections-More Than Just the Common Cold.	Paules CI	USA	JAMA	14.777	622	23/1/2020	Editorial/Comment/Letter/News/Expert opinion/Essay	R.D.	GD	Description of the outbreak, transmission, clinical symptoms and economical costs.
8	10.1056/NEJMc2001468	6	Transmission of 2019-nCoV Infection from an Asymptomatic Contact in Germany	Rothe C	Germany	New England Journal of Medicine	37.909	933	30/1/2020	Case Report/Case Study	D.C.D	TR	Report a case of SARS-CoV-2 infection acquired outside Asia in which transmission appears to have occurred during the incubation period in the index patient.
9	10.1056/NEJMoa2001017	6	A Novel Coronavirus from Patients with Pneumonia in China, 2019	Zhu N	China	New England Journal of Medicine	37.909	933	24/1/2020	Editorial/Comment/Letter/News/Expert opinion/Essay	R.D.	V	Describe the use of different diagnostic methods: bronchoalveolar-lavage fluid, RNA extracted from bronchoalveolar-lavage fluid and culture supernatants.
10	10.1002/jmv.25681	4	Emerging coronaviruses: Genome structure, replication, and pathogenesis	Chen Y	China	Journal of Medical Virology	2.066	105	22/1/2020	Systematic Review/Meta Analysis/Non Systematic R	R.D.	V	Perform a brief introduction of the general features of CoVs and describe diseases caused by different CoVs in humans and animals.
11	10.1016/j.ijid.2020.01.050	4	Preliminary estimation of the basic reproduction number of novel coronavirus (2019-nCoV) in China, from 2019 to 2020: Adata-driven analysis in the early phase of the outbreak	Zhao Shi	China	International journal of infectious diseases	3.420	73	30/1/2020	Other	O.D.	TR	Estimate the transmissibility of SARS-CoV-2 via the basic reproduction number, R0, based on the limited data in the early phase of the outbreak.

MENTIONS
(95% quantile: 66.95)
