

INFEKTA: A General Agent Based Model for Transmission of Infectious Diseases: Studying the COVID19 Propagation in Bogotá - Colombia

Parameters

Exposed time (T_E)

I.Critically time (T_{IS})

I.Seriously time (T_{IC})

Recovered time (T_R)

Infection probability (α)

I.Seriously probability (β)

I.Critically probability (θ)

Immune probability (ω)

Dead probability (ϕ)

Social separation rule

- ☒ None
- ☐ Soft
- ☐ Medium
- ☐ Extreme
- ☐ Total
