

Supplemental Table 6

Source Type	Region (Primary organization)	Population Sampled	Proposed sampling frame and method	Intended sample size	Intended sampling dates	Additional Notes
<i>Proposed Study</i>						
Media Report & News Release	Albuquerque, New Mexico, United States (TriCore Reference Laboratories)	Suspected COVID-19 cases	Testing done upon referral by healthcare provider		TBD	
	Andorra (Andorra Government)	General Population	Test every member of the population	77,000	TBD	
	Boston, San Francisco, New York City, Seattle, Los Angeles, Minneapolis, United States (National Institutes of Health, CDC)	General Population	Random samples from blood donors, once a month for 6 months	6,000	01/03/20-31/08/20	
	Canada (Government of Canada)	General Population	Not specified	1,000,000	TBD	
	Cleveland, Ohio, United States (Ohio State University Wexner Medical Centre)	Health care workers	Not specified		TBD	
	India (Indian Council for Medical Research)	General Population	Not specified	500,000	TBD	
	Santa Clara Valley, Palo Alto, California, United States (Stanford Health Care)	Health care workers	Test only offered to Stanford doctors, nurses and other workers	2,500	TBD	
	Ukraine (Ukraine Government)	General Population	Targeting 1,000,000 tests/day		TBD	ELISA test kit to be used
	United Kingdom (Department for Health and Social Care & Office for National Statistics)	General Population	Targeting 1,000 households; past participants in ONS studies; no COVID symptoms. Sample will be age and geographically representative of the UK.	25,000	TBD	Plan to increase the sample size to 300,000 over 12 months.
	United States (Baystate Health)	General Population	Not specified		TBD	
	United States (National Institutes of Health, CDC)	General Population	Random samples from blood banks nationally taken in September 2020, December 2020, and November 2021	50,000	01/09/20-30/11/21	
	Washington, United States (Washington State Government)	General Population	Random sampling	25,000	TBD	
Clinical trial database	Australia (Albury Wodonga Health)	Health care workers	Not specified	50	TBD	
	Brazil (Butantan Institute)	General Population	Non-probability sample of multiple age groups divided evenly across 10 cities in Brazil, no further specification provided.	4,100	TBD	
	Denmark (Herlev Hospital (Multi-centre study))	Health care workers	All hospital staff offered testing	30,000	TBD	
	Limoges, France (University Hospital, Limoges)	ICU Health care workers	Not specified	130	TBD	
	Michigan, United States (William Beaumont Hospitals)	Health care workers	Non-probability sample, not further specified.	50,000	10/04/20-30/06/21	Test kit developed by EUROIMMUN
	Netherlands (National Institute for Public Health and the Environment (RIVM))	Healthy Individuals	Participants from PIENTER-3	4,000	TBD	
	United Kingdom (Queen's University, Belfast)	Healthy and infected children	Non-probability sample, no further specification provided.	150	13/04/20-13/10/20	

Supplemental Table 6

Source Type	Region (Primary organization)	Population Sampled	Proposed sampling frame and method	Intended sample size	Intended sampling dates	Additional Notes
Government / NGO / Health System	United States (National Institutes for Health)	Healthy adults without a history of COVID-19	10,000 healthy adult volunteers (>18 years) without a history of COVID-19 from across the US	10,000	TBD	ELISA test kit developed by NIAID and NIBIB (IgM IgG)
<b>Completed Study</b>						
Media Report & News Release	Boston, Massachusetts, United States (Massachusetts General Hospital)	Healthy Individuals	Random sampling of asymptomatic individuals, filling the 1,000 spots first come first serve	1,000	until 01/05/20	
	Davis, California, United States (University of California, Davis)	Infected healthcare workers	Not specified		TBD	Test kit developed by UC Davis
	Denver, Colorado, United States (National Jewish Health)	Patients served by National Jewish Health facility	Targeting 100-200 tests/day; self-referral or referral by a physician to drive thru testing site		starting 24/04/20	
	Finland (Finland Institute for Health and Welfare)	General Population	Targeting 750 people/week; random invitations to working-age individuals in the capital at first, then everyone later		starting 10/04/20	
	Germany (Brunswick's Helmholtz Institute for Infectious Disease Research)	General Population	Not specified	100,000	TBD	
	Hawaii, United States (Hawaii State Government)	General Population	Not specified		starting 29/04/20	
	Indiana, United States (Indiana State Department of Public Health)	General Population	Appears to be random		TBD	
	Kolar, Karnataka, India (Kolar state and central governments)	Front line workers (health care, police)	Randomized testing		starting 30/04/20	ELISA and LFIA test kits evaluated by the Indian Council of Medical Research to be used
	Lombardy, Italy (National Health Council)	Health care workers	Targeting 20,000 tests/day; begin with healthcare workers, then those in quarantine with symptoms, then their contacts		TBD	Test kit developed by DiaSorin with sensitivity of 90.4% and specificity of 98.5%
	Los Angeles County, California, United States (University of Southern California)	University students at USC	Targeting 500-800 students/day	1,700	30/04/20-08/05/20	
	Louisiana, United States (Christus Health)	Health care workers	Testing staff members and some patients	20,000	TBD	Test kit developed by Healgen Scientific with sensitivity of 99% and specificity of 90%
	New York City, New York, United States (New York State Department of Health)	General Population	Testing performed on individuals who volunteer and pay		TBD	Test kit developed by Ray Biotech
	New York City, New York, United States (New York State Department of Health)	General population	Not specified	3,000	TBD	
	Plattsburgh, New York, United States (New York State Department of Health)	General Population	Tests were administered at Market 32 "Price Chopper" in Plattsburgh		19/04/20-20/04/20	
	Scottsdale, Tuscon, Arizona, United States (ARCpoint Labs)	Paying customers	Customers pay \$60 to be tested		TBD	
	United States (CDC & Georgia Department of Public Health)	General Population	420 households in Fulton & Dekalb counties		28/04/20-04/05/20	
Vermont, New Hampshire, Maine, United States (ClearChoiceMD )	People served by the Clear Choice MD system	Not specified		TBD	Test kit developed by Quest Diagnostics	

Supplemental Table 6

Source Type	Region (Primary organization)	Population Sampled	Proposed sampling frame and method	Intended sample size	Intended sampling dates	Additional Notes
Clinical trial database	Bremen, Germany (Performa Nord Zentrum für Gesunde Arbeit Arbeitsmedizinischer Dienst)	General Population	Not specified	100	TBD	
	England (University of Oxford)	Children and youth	Not specified	3,500	TBD	
	France (Assistance Publique - Hopitaux de Paris)	Medical and paramedical staff	Not specified	1,000	starting 16/03/20	
	France (Institut Pasteur)	Travellers to China before outbreak or suspected of being infected	Non-probability sample	1,000	TBD	
	Germany (Krankenhaus Reinbek St. Adolf-Stift)	Healthy Individuals	Representative sample of hospital employees, not specified further.	800	TBD	
	Hannover, Germany (Medizinische Hochschule Hannover)	Health care workers	Not specified	1,000	TBD	
	London, United Kingdom (University College, London)	Health care workers	Non-probability sample	400	TBD	
	North Carolina, United States (Michael Runyon, MD)	Atrium health workers and clients	Not specified	450,000	starting 01/05/20	
	Paris, France (Assistance Publique - Hopitaux de Paris)	Hospitalized children	Not specified	960	TBD	
	Paris, France (Assistance Publique - Hopitaux de Paris)	Parents of hospitalized children	Not specified	960	TBD	
	Vienna, Austria (Ludwig Boltzmann Institute for Lung Health)	General Population	Participants from the age and sex-representative LEAD cohort study will give blood samples at at two timepoints	5,500	TBD	
	Vienna, Austria (Medical University of Vienna)	Health care workers	Non-probability sample, not specified further.	400	TBD	
	Wuhan, Hubei, China (Tongji Hospital)	Health care workers	Not specified		TBD	
<b>Ongoing Study</b>						
Media Report & News Release	Singapore, Singapore (National Centre for Infectious Diseases)	General Population	Not specified	774	TBD	
	Singapore, Singapore (National Centre for Infectious Diseases)	Health care workers	Staff at National University Hospital, Tan Tock Seng Hospital and NCID	1,096	TBD
