## **Supplementary Information**

Supplement Figure 1. Percentage of deaths cremated by Age for Ontario in 2017-2019. The values were calculated using Statistics Canada's 2017-2018 age stratified mortality.

Supplement Table 1. Total long-term care deaths by time period.

|                       |            |           | LTC       |
|-----------------------|------------|-----------|-----------|
|                       | TOTAL LTC  | TOTAL LTC | CREMATION |
|                       | CREMATIONS | DEATHS    | RATE      |
| 2017                  | 12386      | 18669     | 66.72%    |
| 2018                  | 12838      | 18204     | 71.51%    |
| 2019 (1 Jan to 1 Oct) | 9439       | 13365     | 70.62%    |
| 2020 (15 April to 31  |            |           |           |
| May)                  | 2444       | 3766      | 64.90%    |

Supplement Figure 2. Number of cremations in 2020 by month in the bar and the projected numbers of cremations with 95% confidence intervals derived from the time series model.

Supplement Figure 3: Monthly cremation by facility compared to averages for 2017-2019.
