

Supplementary

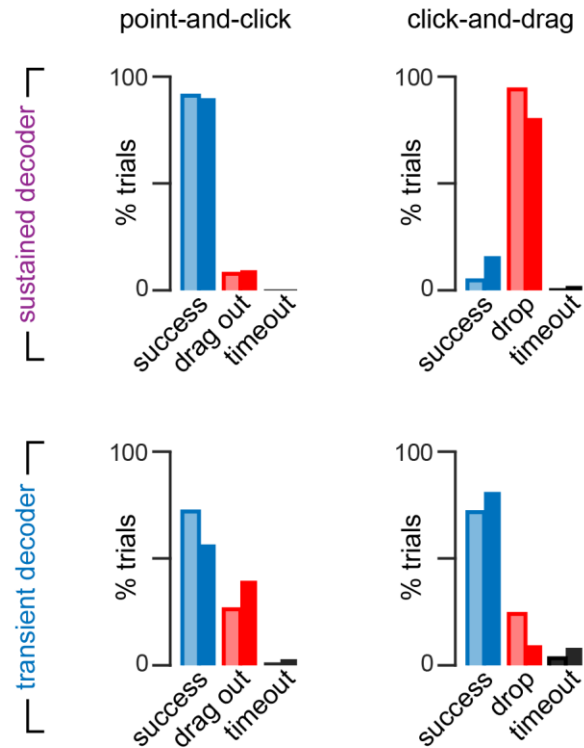

Figure S1 Outcome distributions for all conditions if early clicks are allowed.

	Number of click attempts				
	1	2	3	4	5+
sustained discrete click calibration	54%	20	11	9	6
sustained sustained click calibration	11	15	13	14	46
transient discrete click calibration	80	16	3	1	0
transient sustained click calibration	87	11	2	1	0

Figure S2 Distribution of click attempts on successful point-and-click trials if early clicks are allowed.
